This Ordinance also provides a process to request variances from and exceptions to the terms of this Ordinance, allowing individuals to make such requests directly to the Jones County Board of Adjustment, and providing a right to appeal any decision made by the Board of Adjustment to District Court.

SECTION 3. PURPOSE AND OBJECTIVES

This Ordinance is adopted in accordance with, and as authorized by, 1999 Iowa Code Chapter 335, County Zoning; 1999 Iowa Code Chapter 352, Agricultural Land Use; and 1999 Iowa Code Chapter 331, County Home Rule. This Ordinance is also adopted upon the consideration and guidance of the Jones County 1997 Land Use Plan prepared by the Jones County Land Use Plan Advisory Board.

Except as may be hereinafter specified, no land, building, structure, or premises, hereafter shall be used, and no structure may be located, constructed, extended, converted, structurally altered, or otherwise developed, without full compliance with the terms of this Ordinance.

This Ordinance is intended and designed to meet the goals and objectives of the Jones County 1997 Land Use Plan. These goals and objectives are intended to be applied throughout Jones County regardless of land use designation and comprise the overall land use strategy of the county.

Said exemptions shall not apply to structures, buildings, dams, obstructions, deposits or excavations in or on the flood plains of any river or stream.

SECTION 7. INCENTIVES FOR FARMS AND FARM OPERATIONS

Therefore, the following incentives for agricultural land preservation under 1999 Iowa Code Sections 352.10, 352.11 and 6B.3 shall apply to farms and farm operations located within the AP and AG Districts.

- A. Limitation on Power to Impose Assessments

A political subdivision or a benefited district providing public services such as sewer, water, lights, or for non-farm drainage shall not impose benefit assessments or special assessments on land used primarily for agricultural production within the AP or AG Districts on the basis of frontage, acreage, or value, unless the benefit assessments or special assessments were imposed prior to the enactment of this Ordinance or unless the service is provided to the landowner on the same basis.
- B. Nuisance Restriction

A farm or farm operation located in the AP or AG Districts shall not be found to be a nuisance regardless of the established date of operation or expansion of the agricultural activities of the farm or

farm operation. This section is subject to the following exceptions:

1. The restriction does not apply to a nuisance, which is the result of a farm operation determined to be in violation of a federal statute or rule.
2. The restriction does not apply if the nuisance results from the negligent operation of the farm or farm operation.
3. The restriction does not apply to actions or proceedings arising from injury or damage to a person or property caused by the farm or a farm operation before the passage of this Ordinance.
4. The restriction does not affect or defeat the right of a person to recover damages for an injury or damage sustained by the person because of the pollution or change in condition of the waters of a stream, the overflowing of the person's land, or excessive soil erosion onto another person's land, unless the injury or damage is caused by an act of God.

A person shall not bring an action or proceeding based on a claim of nuisance arising from a farm operation unless the person proceeds with mediation as provided in 1999 Iowa Code Chapter 654B. If a defendant is a prevailing party in an action or proceeding based on a claim of nuisance and arising from a farm operation conducted on farm land within the AP or AG Districts the plaintiff shall pay court costs and reasonable attorney fees incurred by the defendant, if the court determines that the claim is frivolous.

B. Water Priority

In the application for a permit to divert, store, or withdraw water and in the allocation of available water resources under a water permit system, the Iowa Department of Natural Resources shall give priority to the use of water resources by a farm or farm operation, exclusive of irrigation, located in the AP or AG Districts over all other uses except the competing uses of water for ordinary household purposes.

C. State Regulation

A rule adopted by a state agency after July 1, 1982, which would restrict or regulate farms or farm operations may contain standards, which are less restrictive for farms or farm operations inside of the AP or AG Districts than for farms or farm operations outside these districts. A rule containing such a discrimination shall not for the fact of such discrimination alone be found or held to be unreasonable, arbitrary, capricious, beyond the authority delegated to the agency, or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

D. Application for Condemnation

If the damages are to be paid by the State and the land to be condemned is within the AP or AG Districts a statement shall be provided disclosing whether any of that land is classified as Class I or Class II land under the United States Department of Agriculture Natural Resources Conservation Service Land Capability Classification System contained in the Agricultural Handbook Number 210, 1961 edition and, if so classified, stating that the Class I or Class II land is reasonably necessary for the work of internal improvement for which condemnation is sought.

SECTION 8. RELATIONSHIP TO LAND USE PLAN

The enactment, amendment and administration of this Ordinance shall be accomplished with due consideration of the purpose and objectives of the Jones County Land Use Plan, prepared by the Jones County Land Use Plan Advisory Board, and as adopted by the Board of Supervisors. The Plan shall serve as a guide for the future development of Jones County and the basis for the enactment of this Ordinance.

SECTION 9. IOWA OPEN MEETINGS LAW

The commissions and boards, and public bodies of this Ordinance are subject to the terms, regulations, and restrictions of the Iowa Open Meetings Law, under 1999 Iowa Code Chapter 21. ARTICLE IV

LAND USE CLASSIFICATIONS

SECTION 1. GENERAL

The Jones County Land Use Plan, as prepared by the Jones County Land Use Plan Advisory Board, has recognized that most of the County is made up of prime agricultural land and is rural in nature. The Land Use Plan identifies the need for the preservation of agricultural operations and the rural character in the County. The Land Use Plan also recognizes that non-agricultural growth and development near the urban areas is a necessary part of the County for continued viability of the area.

Pursuant to these recommendations, this Ordinance provides for both objectives by having two land use areas. The majority of the County is rural and orientated toward agricultural production. This area is best protected from urban growth by classification as an AGRICULTURAL PRESERVATION USE AREA. Land in the fringe areas of existing urban centers has been classified as AGRICULTURAL GENERAL USE AREA. The entire county is classified as an AGRICULTURAL PRESERVATION USE AREA except for the unincorporated towns and the area classified as AGRICULTURAL GENERAL USE AREA. (See Land Use map incorporated as part of this Ordinance.)

The “principal permitted uses” as outlined within the two land use classifications are not subject to restrictions by the Land Use Ordinance and therefore do not require variance application and approval. The “special permitted uses” within each land use classification constitute a change in use and require variance application and approval by the Jones County Board of Adjustment as outlined in Article X of this Ordinance.

SECTION 2. AP - AGRICULTURAL PRESERVATION USE AREA (also referred to as Agricultural Preservation District)

- A. Intent: The Agricultural Preservation Use Area is intended to protect agricultural land from encroachment of urban land uses. It is also intended to preserve the rural character of this area by restricting the development of new rural, non-farm dwellings and limiting the amount of land that can be used for a building site. It is further the intent of these regulations to protect the groundwater resource to the maximum extent practical through the proper management of sources and routes of contamination within the district.
- B. Principal Permitted Uses: Property and buildings in the Agricultural Preservation Use Area may be used for the following purposes:
1. Farms, farmhouses, and farm buildings related to the farm operation.
 2. Specialized farms where livestock, such as hogs, cattle, horses, poultry, pigeons, rabbits, and other common farm animals are bred and/or raised.
 3. Specialized horticultural operations, including truck gardens, orchards, and wholesale nurseries.
 4. Forests, wildlife preserves, and conservation areas.
 5. Sod farms.
- C. Special Permitted Uses: The following special uses may be permitted in the Agricultural Preservation Use Area after review and approval by the Board of Adjustment:
1. An existing farm dwelling to be split from the adjacent farmland. A minimum of two (2) acres is required and shall include a minimum lot frontage width of 150 feet.

The following additional special uses may be permitted in the Agricultural Preservation Use Area after review and approval by the Board of Adjustment and subject to the restrictions listed below as items (A.), (B.), and (C.):

1. Residential dwellings.
2. Home based industries subject to Article VI.
3. Seed, feed and other direct farm supply businesses.
4. Roadside stands offering for sale products grown on the premises from any of the above uses. Such stands shall be closed or removed during any season or period when the products are not grown to be sold.
5. Private kennels, fox and mink farms.
6. Bed and breakfast inns subject to Article VII.

(A.) A forty (40) acre minimum lot size shall be required for any non-farm use to be located on an agricultural preservation use parcel having an average corn suitability rating of seventy (70) or higher.

(B.) A five (5) acre minimum lot size shall be required for any non-farm use to be located on an agricultural preservation use parcel having an average corn suitability rating below seventy (70).

(C.) All lots shall have a minimum of 150 feet of frontage width and a minimum of 150 feet in depth. No structure shall be closer than 30 feet from any property line.

SECTION 3. AG - AGRICULTURAL GENERAL USE AREA (also referred to as Agricultural General Use District)

- A. Intent: The Agricultural General Use Area is intended to allow for more intensive development of land for a broader range of non-agricultural uses. The Agricultural General Use areas are primarily the fringe areas surrounding the urban centers of the county. Approved uses in this classification include general business, commercial, industrial, and residential. Development in this use area must be designed to protect the rural and residential character of nearby properties, be sufficiently compatible with adjoining properties, preserve natural resources, and have access to adequate infrastructures.
- B. Principal Permitted Uses: Uses shall include any principal permitted use in the Agricultural Preservation Use Area.
- C. Special Permitted Uses: The following special uses may be permitted after review and approval by the Board of Adjustment, on lots of at least one (1) acre in size, exclusive of road right-of-way. Lots shall have a minimum of 150 feet of frontage width and a minimum of 150 feet in depth. Buildings shall not be closer than 30 feet of any property line.
1. Any use permitted in the AP - Agricultural Preservation Use Area using the same restrictions.
 2. Churches or other places of worship, including parish houses and Sunday school facilities.
 3. Parks, playgrounds, golf courses (public and private), service organizations, and recreational uses.
 4. Schools (public and private), educational institutions, preschools, and day care facilities.
 5. Residential dwellings.
 6. Residential subdivisions are subject to approval of the preliminary and final plat in accordance with the Jones County Subdivision Ordinance and approval of the Jones County Board of Supervisors.
 7. Individual sized lots of less than one acre per living unit, in an approved subdivision, may be permitted, provided water and sewage disposal systems meet standards outlined in Chapters 49 and 69 of [567] of the Iowa Administrative Code (IAC) and the developer meets all Iowa Department of Natural Resources requirements.
 8. General business, commercial, and light industrial facilities will be permitted, but with the most consideration given to locations near major highways and/or major traffic route intersections and in close fringe areas of existing urban centers. All land use variance applications in this category shall also include a development plan and that plan shall be evaluated on its conformance to the following criteria:
 - a. Compatibility: The proposed buildings or use shall be constructed, arranged, and operated so as to be compatible with the character of the immediate vicinity, and not interfere with the development and use of nearby properties. The proposed development shall not be unsightly, obnoxious, or offensive in appearance to abutting or nearby properties.
 - b. Transition: The development shall provide for a suitable transition, and if necessary, a buffer between the proposed buildings or use and surrounding properties. If a proposed development involves a land use that is different than the adjacent properties, a buffer area may be considered as a suitable transition between the proposed development and nearby properties.

- c. Traffic: The development shall provide for adequate ingress and egress, with particular attention to vehicular and pedestrian safety and convenience, traffic flow and control, and emergency access.
- d. Parking and Loading: The development shall provide all off street parking and loading areas as considered necessary for the proposed use and adequate service entrances and areas. Appropriate screening around parking and service areas may be required to minimize visual impacts, glare from headlights, noise, fumes, and other detrimental impacts.
- e. Signs and Lighting: Signage may be appropriately designed for the proposed land use but shall not be unreasonably offensive to surrounding properties. The size, height, and design shall not interfere with the general character of surrounding land uses. Exterior lighting, if provided, shall be with consideration given to glare, traffic safety, and compatibility with property in the immediate vicinity.
- f. Environmental Protection: The development shall be planned and operated in such a manner that will safeguard environmental and visual resources. The development shall not generate excessive noise, vibration, dust, smoke, fume, odor, glare, ground water pollution or other undesirable, hazardous or nuisance conditions, including weeds.

JONES COUNTY IOWA ORDINANCE 2001-02

An ordinance amending the code of ordinances of the County of Jones, State of Iowa.

Be it enacted by the Board of Supervisors of Jones County, Iowa, as follows:

Section 1: The purpose of this ordinance is to add CHAPTER 5, MONTICELLO REGIONAL AIRPORT, CITY OF MONTICELLO/JONES COUNTY, IOWA AIRPORT OVERLAY ZONE, OF TITLE VI – PROPERTY & LAND USE.

Section 2: The Chapter will read as follows:

CHAPTER 5

MONTICELLO REGIONAL AIRPORT
CITY OF MONTICELLO/JONES COUNTY, IOWA
AIRPORT OVERLAY ZONE
District Regulations

TITLE VI – PROPERTY & LAND USE

A. INTENT

The Monticello Regional Airport Overlay Zone is established pursuant to the Authority conferred by the State of Iowa in Section 329.3 of the Iowa Administrative Code. It is hereby found that incompatible land uses and densities within the airport boundary and the areas immediately surrounding the airport may conflict with the best interests of the Monticello Regional Airport and the residents of the City of Monticello and Jones County; that an obstruction has the potential for endangering the lives and property of users of the Monticello Regional Airport and property or occupants of land in its vicinity; that an obstruction may affect existing and future instrument approach minimums of the Monticello Regional Airport; and that an obstruction may reduce the size of areas available for the landing, takeoff, and maneuvering of aircraft, thus tending to destroy or impair the utility of the Monticello Regional Airport and the public investment therein. Accordingly, it is declared:

1. That the facilitation of proper and logical land uses within the vicinity of the airport and the prevention of incompatible land uses in this area is critical to the successful development of the airport;
2. That the creation or establishment of an obstruction has the potential of being a public nuisance and may injure the region served by the Monticello Regional Airport;
3. That it is necessary in the interest of the public health, safety, and general welfare that the creation or establishment of obstructions that are a hazard to air navigation be prevented; and
4. That the prevention of incompatible land uses, densities, and obstructions should be accomplished, to the extent legally possible, by the exercise of the police power without compensation.
5. That the airport owner will take appropriate action, including the adoption of zoning laws, to the extent reasonable, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft.

It is further declared that the prevention of the creation or establishment of hazards to air navigation, the elimination, removal, alteration or mitigation of hazards to air navigation, or marking and lighting of obstructions are public purposes for which a political subdivision may raise and expend public funds and acquire land or interests in land.

B. PURPOSE

The Monticello Regional Airport Overlay District is established in order to:

1. Prevent the establishment of air space obstructions in public airport approaches and surrounding areas.
2. Minimize potential dangers from, and conflicts with, the use of aircraft at the Monticello Regional Airport.
3. Protect the Monticello Regional Airport from encroaching incompatible uses and densities.
4. Address Federal Aviation Regulation (FAR) Part 77 and all other applicable federal and state laws regulating hazards to air navigation.

D. AIRPORT ZONES

In order to carry out the provisions of this Ordinance, there are hereby created and established certain zones which include all of the land lying beneath the approach surfaces, transitional surfaces, horizontal surfaces, and conical surfaces as they apply to Monticello Regional Airport. Such zones are shown on the Monticello Regional Airport Zoning Map, prepared by the City of Monticello, and is made a part hereof. An area located in more than one (1) of the following zones is considered to be only in the zone with the more restrictive standard. The various zones are hereby established and defined as follows:

1. Approach Surface Zone: The approach surface begins 200 feet from the hard surfaced threshold where the runway is and coincides with the threshold where the runway surface is turf.
2. Inner Approach Surface: The inner portion of the approach surface is extending out from the runway end to where the Part 77 Subpart C approach surface reaches a one hundred foot (100') height above the ground elevation.
3. Precision Instrument Runway Approach Zone: The inner edge of this approach zone coincides with the width of the primary surface and is 1,000 feet wide. The approach zone expands outward uniformly to a width of 16,000 feet at a horizontal distance of 50,000 feet from the primary surface. Its centerline is the continuation of the centerline of the runway.
4. Runway Protection Zone (RPZ): An area off the runway end to enhance the protection of people and property on the ground.
5. Runway Visual Approach Zone: The inner edge of this approach zone coincides with the width of the primary surface and is 250 feet wide. The approach zone expands outward uniformly to a width of 1,250 feet at a horizontal distance of 5,000 feet from the primary surface. Its centerline is the continuation of the centerline of Runway 27.
6. Runway Nonprecision Instrument Approach Zone: The inner edge of this approach zone coincides with the width of the primary surface and is 500 feet wide. The approach zone expands outward uniformly to a width of 2,000 feet at a horizontal distance of 5,000 feet from the primary surface. Its centerline is the continuation of the centerline of the Runways 9 and 15.
7. Runway With A Visibility Minimum As Low As ¾ Mile Nonprecision Instrument Approach Zone: The inner edge of this approach zone coincides with the width of the primary surface and is 1,000 feet wide. The approach zone expands outward uniformly to a width of 4,000 feet at a horizontal distance of 10,000 feet from the primary surface. Its centerline is the continuation of the centerline of Runway 33.
8. Transitional Zones: The transitional zones are the areas beneath the transitional surfaces.
9. Horizontal Zone: The horizontal zone is established by swinging arcs of 5,000 feet radii from the center of each end of the primary surface of each runway and connecting the adjacent arcs by drawing lines tangent to those arcs. The horizontal zone does not include the approach and transitional zones.
10. Conical Zone: The conical zone is established as the area that commences at the periphery of the horizontal zone and extends outward therefrom a horizontal distance of 4,000 feet.

E. AIRPORT ZONE HEIGHT LIMITATIONS

Except as otherwise provided in this Ordinance, no structure shall be erected, altered, or maintained, and no tree shall be allowed to grow in any zone created by this Ordinance to a height in excess of the applicable height limit herein

established for such zone. Such applicable height limitations are hereby established for each of the zones in question as follows:

1. Runway Visual Approach Zone: Slopes twenty (20) feet outward for each foot upward beginning at the end of and at the same elevation as the primary surface and extending to a horizontal distance of 5,000 feet along the extended centerline for Runway 27.
2. Runway Nonprecision Instrument Approach Zone: Slopes twenty (20) feet outward for each foot upward beginning at the end of and at the same elevation as the primary surface and extending to a horizontal distance of 5,000 feet along the extended centerlines for Runways 9 and 15.
3. Runway With A Visibility Minimum As Low As ¾ Mile Nonprecision Instrument Approach Zone: Slopes thirty-four (34) feet outward for each foot upward beginning at the end of and at the same elevation as the primary surface and extending to a horizontal distance of 10,000 feet along the extended centerline for Runway 33.
4. Transitional Zones: Slope seven feet (7 feet) outward for each foot upward beginning at the sides of and at the same elevation as the primary surface and the approach surface, and extending to a height of 150 feet above the airport elevation which is 1,230 feet above mean sea level. In addition to the foregoing, there are established height limits sloping seven feet (7 feet) outward for each foot upward beginning at the sides of and at the same elevation as the approach surface, and extending to where they intersect the conical surface. Where the precision instrument runway approach zone projects beyond the conical zone, there are established height limits sloping seven feet (7 feet) outward for each foot upward beginning at the sides of and at the same elevation as the approach surface, and extending a horizontal distance of 5,000 feet measured at 90 degree angles to the extended runway centerline.
5. Horizontal Zone: Established at 150 feet above the airport elevation or at a height of 982 feet above mean sea level.
6. Conical Zone: Slopes twenty feet (20 feet) outward for each foot upward beginning at the periphery of the horizontal zone and at 150 feet above the airport elevation and extending to a height of 350 feet above the airport elevation.

F. USE RESTRICTIONS

Notwithstanding any other provisions of this Ordinance, no use may be made of land or water within any zone established by this Ordinance in such a manner as to create electrical interference with navigational signals or radio communication between the airport and aircraft, make it difficult for pilots to distinguish between airport lights and others, result in glare in the eyes of pilots using the airport, impair visibility in the vicinity of the airport, create bird strike hazards, or otherwise in any way endanger or interfere with the landing, takeoff, or maneuvering of aircraft intending to use the airport.

1. RUNWAY PROTECTION ZONE: Runway protection zone is a trapezoidal area “off the end of the runway threshold established to enhance the protection of people and property on the ground” in the event an aircraft lands or crashes beyond the runway end. Runway Protection Zones underlie a portion of the approach closest to the airport.

Compatible land use within the RPZ is generally restricted to such land uses as agricultural, golf course, and similar uses that do not involve congregations of people or construction of buildings or other improvements that may be obstructions. The following land use criteria apply within the RPZ:

- (A.) While it is desirable to clear all objects from the RPZ, some uses are permitted, provided they do not attract wildlife, are outside the Runway OFA, and do not interfere with navigational aids. Golf courses (but not club houses) and agricultural operations (other than forestry or livestock farms) are expressly permitted under this provision. Automobile parking facilities, although discouraged, may be permitted, provided the parking facilities and any associated appurtenances, in addition to meeting all of the preceding conditions, are located outside of the object free area extension.

- (B.) Land uses prohibited from the RPZ are: residences and places of public assembly. Churches, schools, hospitals, office buildings, shopping centers, and other uses with similar concentrations of persons typify places of public assembly.
2. INNER APPROACH SURFACE: Compatible land use within the Inner Approach Surface is generally restricted to such land uses as agricultural, golf course, and similar uses that do not involve congregations of people or construction of buildings or other improvements that may be obstructions.
 3. BUILDING RESTRICTION LINE: No structures, other than those approved by the Federal Aviation Administration and the Monticello Regional Airport Board, and which conform to the underlying zoning designation, shall be constructed within the Building Restriction Line (BRL).
 4. EXEMPTION FOR AIRPORT OPERATIONS: Use restrictions shall not apply to necessary and incidental airport operations.
 5. Regardless of any other provisions of this ordinance, no use may be made of land or water within the Airport Overlay District in such a manner as to do any of the following:
 - a. Create electrical interference with navigational signals or radio communication between the airport and aircraft,
 - b. Imitate airport lights,
 - c. Result in glare in the eyes of pilots using the airport,
 - d. Impair visibility in the vicinity of the airport,
 - e. Create bird strike hazards, or
 - f. Otherwise endanger or interfere with the landing, takeoff, or maneuvering of aircraft intending to use the airport.

G. NONCONFORMING USES

1. Regulations Not Retroactive. The regulations prescribed in this Ordinance shall not be construed to require the removal, lowering, or other change or alteration of any structure or tree not conforming to the regulations as of the effective date of this Ordinance, or otherwise interfere with the continuance of a nonconforming use. Nothing contained herein shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which was begun prior to the effective date of this Ordinance and is diligently pursued.
2. Marking and Lighting. Notwithstanding the preceding provision of this Section, the owner of any existing nonconforming structure or tree is hereby required to permit the installation, operation and maintenance thereon of such markers and lights as shall be deemed necessary by the Manager of the Monticello Regional Airport to indicate to the operators of aircraft in the vicinity of the airport the presence of such airport obstruction. Such markers and lights shall be installed, operated and maintained at the expense of the Monticello Regional Airport. Any permit granted may be conditioned to require the owner of the structure in question to install, operate and maintain, at the owner's expense, such markings and lights as may be necessary.
3. Alteration or Change of Nonconforming Use. No permit shall be granted that would allow a nonconforming use or structure to become a greater hazard to air navigation than it was on the effective date of this Ordinance or any amendments thereto or than it is when the application for a permit is made.
4. Nonconforming Uses Abandoned or Destroyed. Whenever the Monticello Regional Airport Board determines that a nonconforming structure has been abandoned or more than 80 percent torn down, physically deteriorated, or decayed, no permit shall be granted that would allow such structure to exceed the applicable height limit or otherwise deviate from the zoning regulations.

H. VARIANCES

1. Any person desiring to erect or increase the height of any structure, or permit the growth of any tree, or use property, not in accordance with the regulations prescribed in this Ordinance, may apply to the Airport Board of Adjustment for a variance from such regulations. The application for variance shall be accompanied by a determination from the Federal Aviation Administration as to the effect of the proposal on the operation of air navigation facilities and the safe, efficient use of navigable airspace. Such variances shall be allowed where it is duly found that a literal application or enforcement of the regulations will result in unnecessary hardship and relief granted, will not be contrary to the public interest, will not create a hazard to air navigation, will do substantial justice, and will be in accordance with the spirit of this Ordinance. Additionally, no application for variance to the requirements of this Ordinance may be considered by the Airport Board of Adjustment unless a copy of the application has been furnished to the Monticello Regional Airport Board for advice as to the aeronautical effects of the variance. If the Monticello Regional Airport Board does not respond to the application within ninety (90) days after receipt, the Airport Board of Adjustment may act on its own to grant or deny said application.

In addition, all applications for height variance within the airport zones shall be accompanied by Federal Aviation Administration Form 7460-1, which has been completed by the applicant and processed by the FAA regional office.

2. Any permit or variance granted may, if such action is deemed advisable to effectuate the purpose of this Ordinance and be reasonable in the circumstances, be so conditioned as to require the owner of the structure or tree in question to install, operate, and maintain, at the owner's expense, such markings and lights as may be necessary. If deemed proper by the Airport Board of Adjustment, this condition may be modified to require the owner to permit the Monticello Regional Airport Board at its own expense, to install, operate, and maintain the necessary markings and lights.

I. CONFLICTING REGULATIONS

Where there exists a conflict between any of the regulations or limitations prescribed in this Ordinance and any other regulations applicable to the same area, whether the conflict be with respect to the height of structures or trees, and the use of land, or any other matter, the more stringent limitation or requirements shall govern and prevail.

J. PERMITS/VARIANCE

1. Future Uses - Except as specifically provided in a, b, and c hereunder, no material change shall be made in the use of land, no structure shall be erected or otherwise established, and no tree shall be planted in any zone hereby created unless a permit or variance therefore shall have been applied for and granted. Each application for a permit or variance shall indicate the purpose for which the permit or variance is desired, with sufficient particularity to permit or variance to be determined whether the resulting use, structure, or tree would conform to the regulations herein prescribed. If such determination is in the affirmative, the permit or variance shall be granted. No permit or variance for a use inconsistent with the provisions of this Ordinance shall be granted unless a variance or permit has been approved in accordance with Section H of this ordinance.
 - a. In the area lying within the limits of the horizontal zone and conical zone, no permit shall be required for any tree or structure less than one hundred feet (100 feet) of vertical height above the ground, except when, because of terrain, land contour, or topographic features, such tree or structure would extend above the height limits prescribed for such zones.
 - b. In areas lying within the limits of the approach zones, but beyond the inner approach surface, no permit shall be required for any tree or structure less than one hundred feet (100 feet) of vertical height above the ground, except when such tree or structure would extend above the height limit prescribed for such approach zones.
 - c. In the areas lying within the limits of the transition zones beyond the Building Restriction Line, no

permit shall be required for any tree or structure less than one hundred feet (100 feet) of vertical height above the ground, except when such tree or structure, because of terrain, land contour, or topographic features, would extend above the height limit prescribed for such transition zones.

- d. Any conditions that the Federal Aviation Administration attaches to the approval recommendation shall be adopted and administered by Monticello Regional Airport Board.

Nothing contained in any of the foregoing exceptions shall be construed as permitting or intending to permit any construction, or alteration of any structure, or growth of any tree in excess of any of the height limits established by this Ordinance except as set forth in Section E.

K. ADMINISTRATIVE AGENCY

It shall be the duty of the City Zoning Administration and County Land Use Administrator to administer the regulations prescribed herein. Applications for permits and variances shall be made to the City Zoning Administration and County Land Use Administrator upon a furnished form. Applications required by this Ordinance to be submitted to the Administrative Agency shall be promptly considered and granted or denied. Application for action by the Airport Board of Adjustment shall be forthwith transmitted by the City Zoning Administration and County Land Use Administrator.

L. BOARD OF ADJUSTMENT

1. There is hereby created an Airport Board of Adjustment to have and exercise the following powers: (1) to hear and decide appeals from any order, requirement, decision, or determination made by the City Zoning Administration and/or County Land Use Administrator in the enforcement of this Ordinance; (2) to hear and decide special exceptions to the terms of this Ordinance upon which such Airport Board of Adjustment under such regulations may be required to pass; and (3) to hear and decide specific variances.
2. The Airport Board of Adjustment shall consist of five members appointed by the City Council and County Board of Supervisors and each shall serve for a term of five years and until his successor is duly appointed and qualified. The City will appoint three members of which one member will be a member of the Monticello Airport Board. The County will appoint two members. Of the members first appointed by the City and County, the first one shall be for a term of five years, the second member for a term of four years and the third appointment from the Monticello Airport Board for a term of three years. Members shall be removable by the appointing authority for cause, upon written charges after a public hearing. The terms will begin on January 1. NOTE: For Board of Adjustments comprised of two or more municipalities, see Iowa Statutes, Section 329.12).
3. The Airport Board of Adjustment shall adopt rules for its governance and in harmony with the provisions of this Ordinance. Meetings of the Airport Board of Adjustment shall be held at the call of the Chairperson and at such other times as the Board of Adjustment may determine. The Chairperson or, in the absence of the Chairperson, the Acting Chairperson may administer oaths and compel the attendance of witnesses. All hearings of the Airport Board of Adjustment shall be public. The Airport Board of Adjustment shall keep minutes of its proceedings showing the vote of each member upon each question; or if absent or failing to vote, indicating such act, and shall keep records of its examinations and other official actions, all of which shall immediately be filed in the office of the City Clerk/Land Use Administrator and on due cause shown.
4. RESOLUTION

Whereas the Iowa Chamber Alliance is promoting a proposal to change the Road Use Tax Fund Distribution Formula to increase the city's share from 20 to 25 percent, to increase the state's share from 47.5 to 50 percent, and to decrease the county's share from 32.5 to 25 percent, and to change the basis for the division of the county's share from area and needs to population,

And Whereas we foresee that if this proposal is successful, it will result in dramatic changes to funding levels for County Secondary Road Departments, affecting the ability to provide maintenance and construction services on Secondary Roads,

And Whereas the County Secondary Road System is vitally important with respect to providing a transportation system that serves the needs of the agricultural industry, and provides safe travel routes for school buses, mail carriers, rural residents, and the traveling public,

And Whereas the continued upkeep of the rural roads is so very important that funding levels cannot be shifted away from them.

Be It Therefore Resolved that the Jones County Board of Supervisors oppose the Iowa Chamber Alliance proposal in the initial form that it has been presented.

JONES COUNTY IOWA ORDINANCE 2002-02

An ordinance amending the code of ordinances of the County of Jones, State of Iowa.

Be it enacted by the Board of Supervisors of Jones County, Iowa, as follows:

Section 1: The purpose of this ordinance is to add CHAPTER 6, JONES COUNTY TELECOMMUNICATIONS TOWERS AND ANTENNAS ORDINANCE, OF TITLE VI – PROPERTY & LAND USE.

Section 2: The Chapter will read as follows:

JONES COUNTY TELECOMMUNICATIONS
TOWERS AND ANTENNAS ORDINANCE

ARTICLE I
GENERAL

SECTION 1. TITLE

This ordinance shall be known and may be cited and referred to as the “Jones County Communication Towers and Antennas Ordinance”.

SECTION 2. OVERVIEW

Recent advances in wireless communications technology have resulted in a new generation of telecommunication services. These new services transmit electromagnetic waves of such a frequency and power that will likely require numerous antenna locations. These antennas may be located on buildings, water towers and other similar structures but will also frequently be located on new or enlarged towers. This requires that Jones County regulate these wireless communication system facilities in a different manner than conventional television and radio transmission towers which are able to transmit their signals at much greater distances.

SECTION 3. PURPOSE AND OBJECTIVES

In recognition of the requirements of the Federal Telecommunications Act of 1996, this ordinance is designed and intended to balance the interests of the residents of Jones County, Iowa, telecommunications providers, and telecommunication customers in the siting of telecommunication facilities within Jones County, so as to ensure coordinated development of communications infrastructure while preserving the health, safety and welfare of the County and its residents. More specifically this ordinance has been developed in order to:

Maximize use of existing and approved towers and other structures to accommodate new antennas and transmitters in order to reduce the number of communication towers needed to serve the county;

Encourage providers to co-locate their facilities on a single tower;

Minimize the location of facilities in visually sensitive areas;

Encourage creative design measures to camouflage facilities;

Protect historic and residential areas from potential adverse impacts of communication towers;

Avoid potential damage to adjacent properties from tower failure through engineering and careful siting of tower structures.

FUND BALANCE DESIGNATION RESOLUTION
General Fund

BE IT RESOLVED by the Jones County Board of Supervisors that the amount of the June 30, 2002 General Fund balance exceeding 20% of the fiscal year 2002 cash basis General Fund expenditures and transfers, or \$125,000, whichever is greater, shall be held as unreserved, designated fund balance for courthouse capital projects including tuckpointing and replacement of the heating system. Funds for these purposes were originally budgeted to be used in fiscal years 2001 and 2002.  - 5. All other towers, *excluding amateur radio towers*, in nonresidential areas shall be located a minimum distance from any property line of at least 100 feet or a distance equal to the height of the tower, whichever is greater. *Amateur radio guy tower wires shall maintain a setback of 10 feet from all property lines.*

PROPERTY TAX CREDIT AND EXEMPTION FUNDING RESOLUTION

Whereas, the State of Iowa has appropriated monies for fiscal year July 1, 2002 through June 30, 2003, which are insufficient to fully fund the various local property tax credits and exemptions,

And, whereas, Iowa Code section 25B.7 requires local governments to extend to the taxpayers only those portions of the property tax credits and exemptions that are estimated by the Iowa Department of Revenue and Finance to be funded by the state appropriation,

And, whereas, information provided by the Iowa Department of Management and the Iowa Department of Revenue and Finance in reference to said section provides that local governments may choose to provide up to the full credit, and therefore absorb the difference,

And, whereas, the Iowa Department of Revenue and Finance has estimated the percentages of funding for the affected property tax credits and exemptions as follows: Military Service Exemption-97%, Homestead Credit-90%, Low-income, Elderly, and Disabled Credit-80%;

And, whereas, the option of fully funding the property tax credits and exemptions will cause a funding shortfall to local governments in Jones County of more than \$81,540 in the 2002/2003 fiscal year,

And, whereas, the option of passing on the reduced state-reimbursed values of the credits and exemptions will increase the amount of net taxes paid by taxpayers in the County by more than \$81,540 in the 2002/2003 fiscal year,

And, whereas, we find that fully funding military service exemptions to those persons who have served honorably in this Country's military service is of minimal fiscal impact to the local governments and is in the general public interest,

And, whereas, we find that fully funding the low-income, elderly, and disabled credits to those persons who have qualified for those credits is of minimal fiscal impact to the local governments and in the general public interest,

And, whereas, we find that passing on the reduced state-reimbursed values of the homestead credits to the taxpayers in the County funds local governments to the greatest effect while impacting the largest number of persons

with minimal effect, and therefore, in the public interest,

Now, therefore, be it resolved, pursuant to Iowa Code section 25B.7, that the homestead property tax credits the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1, 2002 through June 30, 2003 shall be 90% of the amount allowed in Iowa Code section 425.1,

Be it further resolved, in lieu of Iowa Code section 25B.7, that the low-income, elderly, and disabled property tax credits, and military service exemptions the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1, 2002 through June 30, 2003 shall be as follows:

Military Service Exemption-100% of the amount allowed in Iowa Code Chapter 426A

Low-income, Elderly, and Disabled Credit-100% of the amount allowed in Iowa Code sections 425.16 through 425.40.

Supervisor Moore introduced the following resolution and moved its adoption, seconded by Supervisor McKean. On roll call vote: Moore aye, McKean aye, Dirks aye, Cruise aye, Cook aye, whereupon the Chairman declared the resolution passed and adopted.

PROPERTY TAX CREDIT AND EXEMPTION FUNDING RESOLUTION

Whereas, the State of Iowa has appropriated monies for fiscal year July 1, 2003 through June 30, 2004, which are insufficient to fully fund the various local property tax credits and exemptions,

And, whereas, Iowa Code section 25B.7 requires local governments to extend to the taxpayers only those portions of the property tax credits and exemptions that are estimated by the Iowa Department of Revenue and Finance to be funded by the state appropriation,

And, whereas, information provided by the Iowa Department of Management and the Iowa Department of Revenue and Finance in reference to said section provides that local governments may choose to provide up to the full credit, and therefore absorb the difference,

And, whereas, the Iowa Department of Revenue and Finance has estimated the percentages of funding for the affected property tax credits and exemptions as follows: Military Service Exemption-98%, Homestead Credit-85%, Low-income, Elderly, and Disabled Credit-40%;

And, whereas, the option of fully funding the property tax credits and exemptions will cause a funding shortfall to local governments in Jones County of more than \$100,000 in the 2003/2004 fiscal year,

And, whereas, the option of passing on the reduced state-reimbursed values of the credits and exemptions to the property taxpayers will increase the amount of net taxes paid by taxpayers in the County by more than \$100,000 in the 2003/2004 fiscal year,

And, whereas, we find that fully funding military service exemptions to those persons who have served honorably in this Country's military service is of minimal fiscal impact to the local governments and in the general public interest,

And, whereas, we find that fully funding the low-income, elderly, and disabled credits to those persons who have qualified for those credits is of minimal fiscal impact to the local governments and in the general public interest,

And, whereas, we find that passing on the reduced state-reimbursed values of the homestead credits to the taxpayers in the County funds local governments to the greatest effect while impacting the largest number of persons with minimal effect, and therefore, in the public interest,

Now, therefore, be it resolved, pursuant to Iowa Code section 25B.7, that the homestead property tax credits the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1,

2003 through June 30, 2004 shall be 85% of the amount allowed in Iowa Code section 425.1,

Be it further resolved, in lieu of Iowa Code section 25B.7, that the low-income, elderly, and disabled property tax credits, and military service exemptions the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1, 2003 through June 30, 2004 shall be as follows:

Military Service Exemption-100% of the amount allowed in Iowa Code Chapter 426A

Low-income, Elderly, and Disabled Credit-100% of the amount allowed in Iowa Code sections 425.16 through 425.40.

2003/2004 INTERFUND TRANSFER RESOLUTION #5

WHEREAS, the Mental Health Case Management Department has been receiving reimbursements from the Medicaid program for indirect expenses initially paid from the county's General Fund (ie. building, utilities, janitorial, accounting, and insurance expenses) since at least fiscal year 1997; And

WHEREAS, the Iowa Department of Human Services has authorized counties to reimburse the General Fund from the Mental Health/Developmental Disabilities Fund for said indirect expenses retroactive to fiscal year 1997, and to make allowances for continued reimbursements to the General Fund for all indirect costs claimed by the Mental Health Case Management program.

NOW, THEREFORE, BE IT RESOLVED by the Jones County Board of Supervisors that the County Auditor is hereby directed to transfer \$98,983.28 from the Mental Health/Developmental Disabilities (MH/DD) Fund to the General Basic Fund for reimbursement of indirect costs claimed by the Mental Health Case Management Department from fiscal year 1998 through fiscal year 2004. Said corrective transfer is contrary to Iowa Code Section 331.432(3), which prohibits transfers of funds from the MH/DD Fund, however said transfer is made upon the recommendation and approval of the State Department of Human Services, the State Department of Management, and the State Auditor's Office.

BE IT FURTHER RESOLVED that beginning July 1, 2004, actual reimbursements for the Medicaid Case Management Program will be divided proportionately, upon receipt, between the General Fund and the Mental Health/Developmental Disabilities Fund based on the ratio of indirect costs as compared to the total program costs included in the projected annual cost report for the Mental Health Case Management program.

Funds for these purposes were originally budgeted to be used in previous fiscal years for said projects. Bids for the heating system were accepted in January of 2002, and then again in January 2003. Jones County did not have sufficient funds available to cover the cost of the project from either bid letting. PROPERTY TAX CREDIT AND EXEMPTION FUNDING RESOLUTION

Whereas, the State of Iowa has appropriated monies for fiscal year July 1, 2004 through June 30, 2005, which are insufficient to fully fund the homestead property tax credits,

And, whereas, Iowa Code section 25B.7 requires local governments to extend to the taxpayers only those portions of the property tax credits and exemptions that are estimated by the Iowa Department of Revenue and Finance to be funded by the state appropriation,

And, whereas, information provided by the Iowa Department of Management and the Iowa Department of Revenue and Finance in reference to said section provides that local governments may choose to provide up to the full credit, and therefore absorb the difference,

And, whereas, the Iowa Department of Revenue and Finance has estimated the percentages of funding for the homestead property tax credits to be 81% of the credit due.

And, whereas, the option of fully funding the property tax credits and exemptions will cause a funding shortfall to local governments in Jones County of more than \$150,000 in the 2004/2005 fiscal year,

And, whereas, the option of passing on the reduced state-reimbursed values of the credits and exemptions to the property taxpayers will increase the amount of net taxes paid by taxpayers in the County by more than \$150,000 in the 2004/2005 fiscal year,

And, whereas, we find that passing on the reduced state-reimbursed values of the homestead credits to the taxpayers in the County funds local governments to the greatest effect while impacting the largest number of persons with minimal effect, and therefore, in the public interest,

Now, therefore, be it resolved, pursuant to Iowa Code section 25B.7, that the homestead property tax credits the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1, 2004 through June 30, 2005 shall be 81% of the amount allowed in Iowa Code section 425.1.

Section 2: The Chapter will read as follows:

CHAPTER 8
JONES COUNTY SIGN ORDINANCE
TITLE VI - PROPERTY AND LAND USE

SECTION 1. PURPOSE.

The purpose of this ordinance is to permit outdoor advertising signs in such a manner that will not confuse or mislead the traveling public, nor obstruct the vision necessary for traffic safety, and to permit and regulate signs in order to support and compliment land use objectives set forth in the Land Use Plan for Jones County. Further, it is the intent of this ordinance to permit and regulate signs in compliance with Chapter 306C, Code of Iowa, and such administrative rules governing outdoor advertising. A written permit shall be obtained from the Administrative Officer before erecting, constructing, reconstructing, enlarging, or moving any sign as defined below. This ordinance shall be known and may be referred to as the "Jones County Sign Ordinance".

SECTION 2. GENERAL INTENT.

It is the intent of the County not to unduly restrict signs and billboards in the rural area. However, placement and construction of signs and billboards should be compatible with surrounding land uses and preserve property values of surrounding properties; should protect existing businesses which are adequately identified and advertised from a proliferation of signs which reduce the effectiveness of individual signs; should not disrupt agricultural operations or take agricultural operations out of production; should not distract adjoining residences; and should not distract nor reduce visibility for vehicular traffic.

PROPERTY TAX CREDIT AND EXEMPTION FUNDING RESOLUTION

Whereas, the State of Iowa has appropriated monies for fiscal year July 1, 2005 through June 30, 2006, which are insufficient to fully fund the homestead property tax credits,

And, whereas, Iowa Code section 25B.7 requires local governments to extend to the taxpayers only those portions of the property tax credits and exemptions that are estimated by the Iowa Department of Revenue and Finance to be funded by the state appropriation,

And, whereas, information provided by the Iowa Department of Management and the Iowa Department of Revenue and Finance in reference to said section provides that local governments may choose to provide up to the full credit, and therefore absorb the difference,

And, whereas, the Iowa Department of Revenue and Finance has estimated the percentages of funding for the homestead property tax credits to be 78% of the credit due.

And, whereas, the option of fully funding the property tax credits and exemptions will cause a funding shortfall to local governments in Jones County of more than \$179,000 in the 2005/2006 fiscal year,

And, whereas, the option of passing on the reduced state-reimbursed values of the credits and exemptions to the property taxpayers will increase the amount of net taxes paid by taxpayers in the County by more than \$179,000 in the 2005/2006 fiscal year,

And, whereas, we find that passing on the reduced state-reimbursed values of the homestead credits to the taxpayers in the County funds local governments to the greatest effect while impacting the largest number of persons with minimal effect, and therefore, in the public interest,

Now, therefore, be it resolved, pursuant to Iowa Code section 25B.7, that the homestead property tax credits the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1, 2005 through June 30, 2006 shall be 78% of the amount allowed in Iowa Code section 425.1.

JONES COUNTY IOWA ORDINANCE 2006-01

An ordinance amending the code of ordinances of the County of Jones, State of Iowa.

Be it enacted by the Board of Supervisors of Jones County, Iowa as follows:

Section 1: The purpose of this ordinance is to replace CHAPTER 8, JONES COUNTY LEAD ORDINANCE OF TITLE V – PUBLIC ORDER, SAFETY & HEALTH with the following new chapter.

Section 2: The Chapter will read as follows:

CHAPTER 8
JONES COUNTY LEAD ORDINANCE
TITLE V - PUBLIC ORDER, SAFETY & HEALTH

SECTION 1. TITLE

This ordinance shall be known and may be cited and referred to as the Jones County Lead Ordinance.

SECTION 2. PURPOSE

The purpose of this ordinance is to control lead hazards in residential dwellings and child-occupied facilities, including establishing standards for inspections and providing penalties for violation of the provisions hereof.

SECTION 3. DEFINITIONS

The following words shall have the following meaning for the purpose of this regulation.

- A. Certified elevated blood lead (EBL) inspector/risk assessor means a person who has met the requirements of Iowa Administrative Code 641-70.5(135) for certification or interim certification and who has been certified by the Iowa Department of Public Health.
- B. Chewable surface means an interior or exterior surface (such as a windowsill) painted with lead-based paint that a young child can mouth or chew.
- C. Child-occupied facility means a building, or portion of a building, constructed prior to 1978, visited by the same child under the age of six years on at least two different days within any week (Sunday through Saturday period, provided that each day's visit lasts at least three hours and the combined weekly visits last at least six hours). Child occupied facilities may include, but are not limited to, day-care centers, pre-schools, and kindergarten classrooms.
- D. Clearance Testing means an activity conducted following interim controls, lead abatement, paint stabilization, standard treatments, ongoing lead-based paint maintenance, or rehabilitation to determine that the hazard reduction activities are complete. Clearance testing includes a visual assessment, the collection and analysis of environmental samples, the interpretation of sampling results, and the preparation of a report.

- E. Deteriorated paint means any interior or exterior paint or other coating that is cracking, flaking, chipping, peeling, or chalking, or any paint or coating located on an interior or exterior surface that is otherwise damaged or separated from the substrate of a building component.
- F. Dripline means the area within three feet surrounding the perimeter of a building.
- G. Dust-lead hazard means surface dust in residential dwellings or child-occupied facilities that contains a mass-per-area concentration of lead greater than or equal to 40 micrograms per square foot on floors, 250 micrograms per square foot on interior windowsills, and 400 micrograms per square foot on window troughs based on wipe samples. A dust-lead hazard is present in a residential dwelling or child-occupied facility when the weighted arithmetic mean lead loading for all single-surface or composite samples of floors and interior windowsills is greater than or equal to 40 micrograms per square foot on floors, 250 micrograms per square foot on interior windowsills, and 400 micrograms per square foot on window troughs based on wipe samples. A dust-lead hazard is present on floors, interior windowsills, or window troughs in an unsampled residential dwelling in a multifamily dwelling if a dust-lead hazard is present on floors, interior windowsills, or window troughs, respectively, in at least one sampled residential unit on the property. A dust-lead hazard is present on floors, interior windowsills, or window troughs in an unsampled common area in a multifamily dwelling if a dust-lead hazard is present on floors, interior windowsills, or window troughs, respectively, in at least one sampled common area in the same common area group on the property. If dust samples are not taken, it may be assumed that surfaces in rooms with hazardous lead-based paint or where renovation, remodeling, or repainting has occurred recently are dust-lead hazards.
- H. Dwelling means a building or structure occupied or designed or intended to be occupied as a place for human habitation and use, including any accessory building, structure, or yard area belonging thereto.
- I. Dwelling unit means any room or group of rooms located within a dwelling and forming a single habitable unit, with facilities which are used or intended to be used for any of the following: living, sleeping, cooking, and/or eating.
- J. Elevated Blood Lead (EBL) Child means any child who has had one venous blood lead level of > 20 micrograms per deciliter or at least two venous blood levels of 15 to 19 micrograms per deciliter.
- K. Friction surface means an interior or exterior surface that is subject to abrasion or friction (rubbing movement that creates dust) including, but not limited to, certain window, floor, and stair surfaces.
- L. Hazardous lead-based paint means lead-based paint that is present on a friction surface where there is evidence of abrasion or where the dust-lead level on the nearest horizontal surface underneath the friction surface (e.g., the windowsill or floor) is equal to or greater than the dust-lead hazard level, lead-based paint that is present on an impact surface that is damaged or otherwise deteriorated from impact, lead-based paint that is present on a chewable surface, or any other deteriorated lead-based paint in any residential building or child-occupied facility or on the exterior of a residential building or child-occupied facility.
- M. Health Officer means the Environmental Officer or authorized representative of the County Board of Health.
- N. Impact surface means an interior or exterior surface that is subject to damage by repeated sudden force (causing paint to be knocked off) such as protruding corners or certain parts of doorframes.
- O. Lead-Based Paint means any paint or other surface coating that contains lead equal to or in excess of 1.0 milligrams of lead per square centimeter (1.0 mg/cm²) or more than 0.5 percent weight. Lead-based paint is present on any surface that is tested and found to contain lead equal to or in excess of 1.0 milligram per square centimeter when tested by a radioisotope X-ray fluorescence analyzer (XRF) or more than 0.5 percent by weight and on any surface like a surface tested in the same room equivalent that has a similar painting history and that is found to be lead-based paint.

- P. Lead-Based Paint Hazard means hazardous lead-based paint, a dust-lead hazard, or a soil-lead hazard.
- Q. Local Board means the local Jones County Board of Health as authorized by Iowa Code chapter 137.
- R. Mid-yard means an area of a residential yard approximately midway between the dripline of a residential building and the nearest property boundary or between the driplines of a residential building and another building on the same property.
- S. Occupant means any person living, sleeping, cooking or eating in, or having any actual possession of, a dwelling or dwelling unit.
- T. Owner means any person who, alone or jointly with others;

 2. Has charge, care or control of any dwelling by acting as the agent of the owner or as the executor, administrator, trustee, or guardian of the estate of the owner.
- U. Paint-Lead Hazard means the presence of hazardous lead-based paint in a residential dwelling or a child-occupied facility.
- V. Play Area means an area of frequent soil contact by children of less than six years of age as indicated by, but not limited to, factors including the following: the presence of play equipment (sandboxes, swing sets, and sliding boards), toys, or other children's possessions; observation of play patterns; or information provided by parents, residents, caregivers, or property owners.
- W. Residential Building means a building containing one or more residential dwellings.
- X. Residential Dwelling means

 2. A single-family dwelling unit in a structure that contains more than one separate residential dwelling unit, which is used or occupied, or intended to be used or occupied, in whole or part, as the home or residence of one or more persons.
- Y. Retaliation means harassment, termination of the tenancy, discontinuation of utilities or other services, and any other action taken against the lessee.
- Z. Soil-lead hazard means bare soil on residential real property or on the property of a child-occupied facility that contains total lead greater than or equal to 400 parts per million for the dripline, mid-yard, and play areas. A soil-lead hazard is present in a dripline, mid-yard or play area when the soil-lead concentration from a composite sample of bare soil is greater than or equal to 400 parts per million. If soil samples are not taken, it may be assumed that bare soil within three feet of the foundation of a garage or other structure built prior to 1978 is a soil-lead hazard.

SECTION 4: SCOPE AND APPLICABILITY

This ordinance shall affect only those dwellings or dwelling units or child-occupied facilities in which an EBL child lives, visits, or has recently lived. All owners shall comply with the provisions of this ordinance and of the rules, resolutions, and order adopted pursuant to this ordinance.

SECTION 5. USE OR SALE OF LEAD-BASED PAINT

No person shall possess, sell, expose for sale, deliver, or give away any lead-based paint intended for painting or covering any surface on the interior or exterior of a residential dwelling.

SECTION 6. DISPOSAL OF LEAD-BASED PAINT

- A. Lead-based paint shall be disposed of in accordance with local, state, and federal regulations for disposing of hazardous waste.
- B. All repair, renovation, or remodeling waste which contains lead-based paint shall be disposed of according to local waste disposal regulations. No person shall re-use or recycle such waste for residential purposes.

SECTION 7. EBL INSPECTIONS

- A. The Jones County Board of Health or Health Officer shall appoint a certified elevated blood lead (EBL) inspector/risk assessor to conduct EBL inspections in residential dwellings and child-occupied facilities where an EBL child lives, visits, or has recently lived. All owners and occupants shall allow access to the residential dwellings and child-occupied facilities that the EBL inspector/risk assessor desires to inspect.
- B. When a lead hazard is found in a dwelling or dwelling unit inspected pursuant to this section or otherwise, the Health Officer shall recommend to have examined all children under six (6) years of age, such other children he/she may find advisable to examine, or other persons, residing or who have recently resided, or frequently visit in said dwelling or dwelling unit, for undue lead exposure. The results of such examination shall be reported to the Health Officer, the affected individual, and when applicable, their parent or legal guardian.
- C. The results of an investigation for lead hazards, including the presence or absence of lead-based paint which are not considered to be lead hazards, shall be reported to the owner in accordance with Section 9. The Health Officer shall inform such other persons or agencies as he/she deems advisable.

SECTION 8. REFUSAL OF ADMITTANCE

If the certified EBL inspector/risk assessor appointed by the local board or Health Officer is refused entry to a property, then the certified EBL inspector/risk assessor may make a complaint under oath to any magistrate of the county. The magistrate may issue a warrant directing the owner or occupant to allow the certified EBL inspector/risk assessor to conduct an EBL inspection and directing a peace officer to accompany the certified EBL inspector/risk assessor during the EBL inspection/risk assessment.

SECTION 9. HAZARD REDUCTION

- A. When the certified EBL inspector/risk assessor appointed by the local board or Health Officer determines that a hazardous lead-based paint, a dust-lead hazard, or a soil-lead hazard is present in a residential dwelling unit or child-occupied facility where an EBL child lives, frequently visits, or has recently resided, the certified EBL inspector/risk assessor shall issue a written notice to the owner within two (2) weeks of the inspection and receipt of any laboratory results. The written notice shall require the owner to complete lead hazard reduction in a time period determined by the certified EBL inspector/risk assessor. If the occupant who occupies the residential dwelling at the time that this written notice is issued vacates the residential dwelling, the residential dwelling shall not be leased or occupied by any other person until the certified EBL inspector/risk assessor issues a written notice that the lead hazard reduction has been completed. However, at the discretion of the Health Officer, additional time may be granted to eliminate said hazard.
- B. The owner of any residential dwelling or child-occupied facility which has been determined to contain hazardous lead-based paint, a soil-lead hazard, or a dust-lead hazard shall correct these lead hazards within the time period allowed by the certified EBL inspector/risk assessor in the written notice. Failure to correct the lead hazard(s) within the allotted time period shall result in the appropriate legal action against the owner for noncompliance, pursuant to Section 15. The following methods shall be used for lead hazard reduction. These methods shall not require the services of a lead abatement contractor certified in accordance with Iowa Administrative Code 641-70.5(135). However, other local, state, or federal regulations may require the use of a contractor who has completed an eight-hour lead-safe work practices course or a lead abatement contractor or lead abatement worker certified in accordance with Iowa Administrative Code 641-70.5(135)

1. On a surface that contains hazardous lead-based paint, but is not chewable and does not have evidence of impact or friction, the lead-based paint hazard shall be reduced by removing all loose and deteriorated paint from the surface, preparing the surface for repainting, and repainting the surface with a lead-free coating.
2. On a surface that contains hazardous lead-based paint and is chewable or has evidence of impact or friction, the lead-based paint hazard shall be reduced by treating the surface one inch back from the edge or corner through one of the following methods:
 - i) All lead-based paint on the treatment area shall be removed to the bare substrate. The surface shall be prepared for repainting and repainted with a lead-free coating.
 - ii) The treatment area shall be covered with a permanently affixed lead-free material such as plastic, wood, or vinyl. Carpet may be used on floors and stair treads.
3. Dust-lead hazards shall be reduced by thoroughly cleaning the affected surface.
4. Soil-lead hazards shall be reduced by planting grass or groundcover, applying sod, or covering the affected area with six inches of bark, gravel, or other material.
5. Lead hazard reduction shall be conducted using lead-safe work practices to protect the safety of the occupants and workers. Occupants shall not enter the work area while work is underway. The following are prohibited methods of lead hazard reduction:
 - i) Open-flame burning or torching of lead-based paint.
 - ii) Machine sanding or grinding or abrasive blasting or sandblasting of lead-based paint unless used with high-efficiency particulate air (HEPA) exhaust control that removes particles of 0.3 microns or larger from the air at 99.97% or greater efficiency.
 - iii) Uncontained water blasting of lead-based paint.
 - iv) Dry scraping or dry sanding of lead-based paint except in conjunction with the use of a heat gun or around electrical outlets.
 - v) Operating a heat gun at a temperature above 1100 degrees Fahrenheit

C. The certified EBL inspector/risk assessor shall inspect all areas identified as hazards after lead hazard reduction is complete. The certified EBL inspector/risk assessor may conduct clearance testing pursuant to Iowa Administrative Code 641-Chapter 70 to ensure that no dust-lead hazards exist after the work is complete. Within two weeks of verifying that all lead hazard reduction has been completed as required, the certified EBL inspector/risk assessor shall issue a written notice to the owner and occupant stating that the lead hazard reduction has been completed and that the repaired surfaces must be maintained in good condition.

SECTION 10. RETALIATORY ACTIONS

- A. The lessor of a dwelling, the employees of the lessor, and agents or persons acting on behalf of the lessor shall not retaliate against lessees of residential dwellings and child-occupied facilities whose occupants or visitors have been tested for lead poisoning and shall not discourage the occupants or visitors from being tested for lead poisoning.
- B. An action taken against the lessee shall not be considered retaliation if:
 1. It is supported by reasonable cause unrelated to the testing of an occupant for lead poisoning, or
 2. If it is shown to have occurred as a result of an accident or mistake and not to be the intentional act of the lessor of a dwelling, the employees of the lessor, or agents or persons acting on behalf of the lessor.

SECTION 11. HEARINGS

In the event any person is aggrieved by any order of the certified EBL inspector/risk assessor, the person may appeal to the local board in writing within ten (10) days of the date of such order. The appeal shall state the reasons for requesting such order to be rescinded or modified. The local board shall review the action of the certified EBL inspector/risk assessor. The local board shall order compliance with said order or may, with cause, modify or withdraw said order. Any order of the local board may be appealed within ten days to the District Court for the county in which the local board is located.

SECTION 12. JURISDICTION

The provisions of this ordinance shall apply throughout Jones County including cities and towns therein, unless the cities and towns have adopted an equivalent lead ordinance.

SECTION 13. ENFORCEMENT

The certified EBL inspector/risk assessor appointed by the local board or Health Officer shall have the duty and responsibility of enforcing this ordinance.

SECTION 14. INJUNCTION

Nothing in this ordinance shall be construed to prohibit the County Board of Health from pursuing injunctive relief or other relief as allowed by law.

SECTION 15. PENALTY

- C. Violation of this ordinance shall constitute a county infraction which shall be punishable by a civil penalty in an amount not to exceed that allowed by Iowa Code Section 331.307 (1.), as now or hereafter amended. Alternatively, or in addition to, constitution of a county infraction, a person found in violation of this ordinance may be guilty of a simple misdemeanor, and on conviction thereof be subject to such maximum penalty as the law allows in Iowa Code Section 903.1, as now or hereafter amended. Each day that a violation occurs or is permitted to exist by the respondent/defendant constitutes a separate offense.
- D. Upon failure of any person to correct a lead hazard identified through this ordinance in the time specified by the certified EBL inspector/risk assessor appointed by the local board or Health Officer, the local board may direct or cause the correction of said hazards. All expenses incurred thereby may be recovered by suit in the name of the County Board of Health, or the County Board of Health may certify the amount of said expenses, together with a description of the property, to the County Treasurer, who shall enter the same upon the tax books as costs for removing a lead hazard and said amounts shall be collected as other taxes.

SECTION 16. SEPARABILITY OF PROVISIONS

If any section, paragraph, clause or provision of the ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provisions shall not affect any of the remaining provisions of this ordinance.

SECTION 17. VARIANCES

The certified EBL inspector/risk assessor may determine that a chewable surface that would otherwise be identified as a hazard by this ordinance is not causing or does not have reasonable potential to cause lead exposure and is not required to be corrected through lead hazard reduction. The certified EBL inspector/risk assessor shall document the reason for this determination in the inspection report. However, the certified EBL inspector/risk assessor shall not, under any circumstances, determine that any other surface meeting the definition of hazardous lead-based paint does not need to be corrected through lead hazard reduction

SECTION 18. EFFECTIVE DATE

This ordinance shall be in effect after its final passage, approval, and publication as provided by law.

Section 3. When Effective

This ordinance shall be in full force and effect from and after its final passage, approval, and publication as provided by law.

- Include an additional \$25,000 transfer from the Rural Services Fund to the Secondary Road Fund; transfer various road and bridge construction projects from regular Secondary Road Funding to option tax funded projects.
- Reduce the conservation revenues to reflect the actual land rental payments, and reflect the transfers of the

adjusted land rent from the General Fund to the Land Acquisition Trust Fund; reduce the Conservation budget by \$16,253 for an insurance calculation error and approximately \$25,622 of various other reductions presented previously by the Conservation Director; reflect approximately \$2,790 of reductions in the re-estimated FY06 General Fund budget.

 - Reduce the requested contribution to the Senior Dining program to the FY06 level.

Section 2: The Chapter will read as follows:

CHAPTER 11
JONES COUNTY KEG REGISTRATION ORDINANCE
TITLE V – PUBLIC ORDER, SAFETY & HEALTH

SECTION 1. TITLE

This ordinance shall be known and may be cited and referred to as the Jones County Keg Registration Ordinance.

SECTION 2. PURPOSE

The identification of purchasers/providers of keg alcoholic beverage for consumption by underage persons is a major law enforcement concern in Jones County, Iowa. When keg alcohol is found where underage persons are present it is necessary to readily identify those responsible. The investigation of crimes involving the furnishing of alcohol to minors and related crimes involving keg alcoholic beverages is inhibited by the inability to identify who purchased the keg alcohol. Registration/identification information must be available on all keg alcohol beverage in Jones County, Iowa. Individual identification number, purchaser and retail seller identity information will better enable law enforcement to identify providers of keg alcoholic beverages to underage persons. Therefore, it is in the public interest to place reasonable keg registration/identification rules as hereinafter set forth. This ordinance provides for the registration and documentation of retail sales of keg alcoholic beverages.

SECTION 3. REGISTRATION AND RETURN PROCEDURE

All retail sales/purchases of alcoholic beverage by keg container of two gallon volume or more in Jones County, Iowa, for off site (at a location which does not hold a liquor license) consumption must comply with the following registration, documentation and labeling requirements and restrictions imposed by this ordinance:

- A. Purchasers shall provide a current government issued photo identification with the purchaser's name, address, and individual identification number to the seller who shall then record and document that information in a log. The log shall also contain the individual keg identification assigned to the keg by the seller, and include the date of sale and indicate that the photo identification that was produced was matched to the purchaser. The log shall also contain some identifier of each person, owner/employee who sold to each purchaser. This information shall be kept by the seller for a minimum period of six months from the date of sale.
- B. Sellers shall assign, record and attach to each retail keg sold for off site consumption an individual keg identification label/sticker, at or before the time of sale to the purchaser, and the label/sticker shall also include a prominent warning thereon that it is illegal to alter, damage or remove the label/sticker from the keg.
- C. Sellers of keg alcohol shall obtain the individual keg identification label/stickers from the Jones County Auditor's Office which shall record to whom the consecutively numbered label/stickers are distributed and shall restrict the distribution of the label/stickers to licensed alcoholic beverage retailers. The Auditor shall keep the record of distribution for one year.
- D. Sellers shall collect a deposit in an amount set by the retailer for each keg. Purchasers shall return kegs to the retail seller where it was purchased with the individual keg identification label/sticker attached, intact and legible on or before sixty (60) days from the date of sale or the deposit shall be forfeited.
- E. Sellers shall record the date on which the keg is returned, who returned the keg and indicate whether the keg identification label/sticker is present or absent by notation on the log.
- F. Sellers shall remove the individual keg identification label/stickers from the kegs when they are returned and shall maintain them with the corresponding keg registration records.
- G. Sellers shall produce keg registration logs/records to law enforcement upon request.
- H. This ordinance does not apply to keg sales to liquor license permittees.

SECTION 4. KEG POSSESSION REQUIREMENTS AND RESTRICTIONS

No person shall possess a keg container of alcoholic beverage of two gallons or more which was purchased in Jones County, Iowa, for consumption, after the effective date of this ordinance, without an intact and legible individual keg identification

label/sticker attached (except for retail sellers of keg alcohol and liquor license permittees).

SECTION 5. KEG STICKER / LABEL PROHIBITIONS

No person shall alter, damage, destroy or remove the individual keg label/sticker which is described and required by this ordinance or other county ordinance/law after it has been attached to the keg (except retail sellers of keg alcohol).

SECTION 6. VIOLATION / PENALTY

A seller or purchaser or other person who violates any of the above requirements and/or restrictions imposed by this ordinance shall be subject to a fine not to exceed \$500 or a term of imprisonment not to exceed 30 days.

SECTION 7. SEVERABILITY CLAUSE

This Ordinance and any amendment hereto and the various parts, sections, subsections and clauses thereof, are hereby declared to be severable. If any part, sentence, paragraph, subsection, section or clause is adjudged unconstitutional or invalid, it is hereby provided that the remainder of the Ordinance or amendment hereto shall not be affected thereby.

SECTION 8. RELATIONSHIP TO OTHER LAWS

Nothing contained herein shall serve to abrogate, limit, repeal, or otherwise modify any other County ordinance or regulation, except as expressly set forth herein. If any provision of this Ordinance conflicts with the provisions of any other Federal, State, or County ordinance, regulation, or statutes, the most restrictive standard shall apply.

SECTION 9. EFFECTIVE DATE

This ordinance shall be in effect July 1, 2006, after its final passage, approval and publication as provided by law.

Section 3. When Effective

PROPERTY TAX CREDIT AND EXEMPTION FUNDING RESOLUTION

Whereas, the State of Iowa has appropriated monies for fiscal year July 1, 2006 through June 30, 2007, which are insufficient to fully fund the homestead and low-income, elderly, and disabled property tax credits,

And, whereas, Iowa Code section 25B.7 requires local governments to extend to the taxpayers only those portions of the property tax credits and exemptions that are estimated by the Iowa Department of Revenue and Finance to be funded by the state appropriation,

And, whereas, information provided by the Iowa Department of Management and the Iowa Department of Revenue and Finance in reference to said section provides that local governments may choose to provide up to the full credit, and therefore absorb the difference,

And, whereas, the Iowa Department of Revenue and Finance has estimated the percentages of state funding for the homestead property tax credits to be 77% of the credit due, and Low-Income, Elderly, and Disabled Credit to be 94% of the credit due.

And, whereas, the option of the local governments absorbing the reduction in state funding of the property tax credits and exemptions will cause a funding shortfall to local governments in Jones County of more than \$191,354 in the 2006/2007 fiscal year,

And, whereas, the option of passing on the reduced state-reimbursed values of the credits and exemptions to the property taxpayers will increase the amount of net taxes paid by taxpayers in the County by more than \$191,354 in the 2006/2007 fiscal year,

And, whereas, we find that fully funding the low-income, elderly, and disabled credits to those persons who have qualified for those credits is of minimal fiscal impact to the local governments and in the general public interest,

And, whereas, we find that passing on the reduced state-reimbursed values of the homestead credits to the taxpayers in the County funds local governments to the greatest effect while impacting the largest number of persons with minimal effect, and therefore, in the public interest,

Now, therefore, be it resolved, pursuant to Iowa Code section 25B.7, that the homestead property tax credits the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1, 2006 through June 30, 2007 shall be 77% of the amount allowed in Iowa Code section 425.1,

Be it further resolved, in lieu of Iowa Code section 25B.7, that the low-income, elderly, and disabled property tax credits the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1, 2006 through June 30, 2007 shall be 100% of the amount allowed in Iowa Code sections 425.16 through 425.40.

Resolution, and moved its adoption, seconded by Supervisor McKean. On roll call vote: Cruise aye, Cook aye, Dirks aye, McKean aye, Moore aye, whereupon the Chairman declared the Resolution passed and adopted.

B. Intent: The intent of this Section is to promote orderly development of residential and recreational uses within the designated corridors located in the County. In addition, it is the County’s intent to conserve the natural and scenic beauty of the designated corridors as well as to conserve the natural resources of the designated corridors. Also, it is the intent to provide for the compatibility of different land uses and the most appropriate use of land throughout the Critical Resource Areas.

C. Establishment of the Critical Resource Area Overlay District: A Critical Resource Area Overlay District with its attendant regulations is hereby established as a part of the Jones County Zoning Ordinance. This District shall overlay the zoning districts presently in existence, or as amended, so that any parcel of land lying in the Overlay District shall also lay in one or more of the underlying established zoning districts. SECTION 2. COMMUNICATION TOWERS

Recent advances in wireless communications technology have resulted in a new generation of telecommunication services. These new services transmit electromagnetic waves of such a frequency and power that will likely require numerous antenna locations. These antennas may be located on buildings, water towers and other similar structures but will also frequently be located on new or enlarged towers. This requires that Jones County regulate these wireless communication system facilities in a different manner than conventional television and radio transmission towers which are able to transmit their signals at much greater distances.

In recognition of the requirements of the Federal Telecommunications Act of 1996, this ordinance is designed and intended to balance the interests of the residents of Jones County, Iowa, telecommunications providers, and telecommunication customers in the siting of telecommunication facilities within Jones County, so as to ensure coordinated development of communications infrastructure while preserving the health, safety and welfare of the County and its residents. More specifically this Article has been developed in order to:

- A. Maximize use of existing and approved towers and other structures to accommodate new antennas and transmitters in order to reduce the number of communication towers needed to serve the county;
- B. Encourage providers to co-locate their facilities on a single tower;
- C. Minimize the location of facilities in visually sensitive areas;
- D. Encourage creative design measures to camouflage facilities;
- E. Protect historic and residential areas from potential adverse impacts of communication towers;
- F. Avoid potential damage to adjacent properties from tower failure through engineering and careful siting of tower structures.

SECTION 3. COMMUNICATION TOWER DEFINITIONS

PROPERTY TAX CREDIT AND EXEMPTION FUNDING RESOLUTION

Whereas, the State of Iowa has appropriated monies for fiscal year July 1, 2007 through June 30, 2008, which are insufficient to fully fund the homestead property tax credits,

And, whereas, Iowa Code section 25B.7 requires local governments to extend to the taxpayers only those portions of the property tax credits and exemptions that are estimated by the Iowa Department of Revenue and Finance to be funded by the state appropriation,

And, whereas, information provided by the Iowa Department of Management and the Iowa Department of Revenue and Finance in reference to said section provides that local governments may choose to provide up to the full credit, and therefore absorb the difference,

And, whereas, the Iowa Department of Revenue and Finance has estimated the percentages of state funding for the homestead property tax credits to be 73% of the credit due, and military credit and low-income, elderly, and disabled credit to be 100% of the credit due.

And, whereas, the option of the local governments absorbing the reduction in state funding of the property tax credits and exemptions will cause a funding shortfall to local governments in Jones County of more than \$219,638 in the 2007/2008 fiscal year,

And, whereas, the option of passing on the reduced state-reimbursed values of the homestead tax credit to the property taxpayers will increase the amount of net taxes paid by taxpayers in the County by more than \$219,638 in the 2007/2008 fiscal year,

And, whereas, we find that passing on the reduced state-reimbursed values of the homestead credits to the taxpayers in the County funds local governments to the greatest effect while impacting the largest number of persons with minimal effect, and therefore, in the public interest,

Now, therefore, be it resolved, pursuant to Iowa Code section 25B.7, that the homestead property tax credits the Jones County Auditor shall apply against property taxes due in Jones County for the fiscal year beginning July 1, 2007 through June 30, 2008 shall be 73% of the amount allowed in Iowa Code section 425.1.

SECTION 8. CLUSTERED SUBDIVISIONS

This article is intended to allow development that will meet future growth projections while preserving and protecting agriculturally, environmentally and historically significant features, and other open areas of the County. Specifically, this includes complementing the environmental and agricultural preservation goals outlined in the Comprehensive Plan; protecting sensitive areas; maintaining separation of non-compatible land uses; preserving and restoring the scenic and natural character of the County; permitting reasonable development while creating an interconnected network of open space that promotes livable, sustainable subdivision development and wildlife habitat and corridors; economizing in the installation of infrastructure and the provision of public services; and encouraging clustering of dwelling units on selected portions of a property and providing incentives for such development. For the purposes of this article, the following terms shall be interpreted as follows.

Essential public and private utilities are permitted uses within a buffer zone. Buffering may include open space, landscaped areas (trees or shrubs), fences, walls, berms or any combination thereof to physically separate or screen one use or property from the other.

Open Space: Land or bodies of water used by subdivision residents for conservation areas, natural habitat, pedestrian corridor, storm water management facilities, subsurface sewage disposal systems, essential utility services and/or recreational uses, and permanently designated as such and protected by a conservation easement. Open Space may include sensitive areas.

F. Open Space Conservation Easement: A non-possessory interest in real estate by which a landowner permanently restricts and reserves a tract of land as Open Space and subjects that tract of land to the restrictions imposed in this article. The Conservation Easement may be owned by a governmental body empowered to hold an interest in real estate, a not-for-profit corporation, including but not limited to a homeowners association, or a charitable trust, which has the purposes and powers to carry out and enforce the requirements and reservations imposed by the Easement.

Density Bonus Process. The density of a clustered subdivision development meeting all the requirements of this article may exceed the designated zoning density of the parcel so long as no less than fifty percent (50%) of the subject parcel is permanently designated as Open Space.

A. If no less than fifty percent (50%) of the original parcel is permanently designated as Open Space, the development may contain twenty-five percent (25%) more total dwelling units than existing zoning regulations currently allow.

B. If no less than seventy-five percent (75%) of the original parcel is permanently designated as Open Space, multi-family development will be allowed.

C. The minimum lot size allowed in conjunction with this article shall be 10,000 square feet, or larger if so required by the regulations of the Jones County Board of Health.

D. Additional or different density bonuses may be granted by the Board of Supervisors to applicants proposing alternatives not set out above. Said bonuses may be granted only after a public hearing has been had on the proposed density bonus and only when doing so is consistent with other Development Ordinances in the County and the County Comprehensive Plan.

Conservation Easement and Site Plan Requirements. The applicant shall supply a completed application to the County that includes a copy of the Conservation Easement for the portion of the development designated as Open Space, a copy of the Conservation Easement Management Plan, and a fully dimensioned site plan, drawn to scale, which shall demonstrate, delineate and label each of the following:

ARTICLE VIII MISCELLANEOUS PROVISIONS

SECTION 1. PENALTY

A violation of this Ordinance shall constitute a county infraction which shall be punishable by a civil penalty in an amount not to exceed that allowed by Iowa Code Section 331.307 (1.), as now or hereafter amended. Alternatively, or in addition to, constitution of a county infraction, a person found in violation of this ordinance may be guilty of a simple misdemeanor, and on conviction thereof be subject to such maximum penalty as the law allows in Iowa Code Section 903.1, as now or hereafter amended. Each day that a violation occurs or is permitted to exist by the respondent/defendant constitutes a separate offense.

SECTION 2. VARIANCES

Where, in the case of a particular proposed subdivision, it can be shown that strict compliance with the requirements of this ordinance would result in extraordinary hardship to the subdivider, because of unusual topography or other conditions, the Board of Supervisors may vary, modify or waive the requirements so that substantial justice may be done and the public interest secured. However, such variance, modification or waiver shall not have the effect of nullifying the intent and purpose of this ordinance. In no case shall a variance or modification be more than a minimal easing of the requirements as necessary to eliminate the hardship. In so granting a variance, the Board of Supervisors may impose such additional conditions as necessary to secure substantially the objectives of the requirements so varied, modified, or waived.

SECTION 3. SEVERABILITY

This Ordinance and any amendment hereto and the various parts, sections, subsections and clauses thereof, are hereby declared to be severable. The needy veteran shall seek and accept any reasonable employment whether or not it is suitable employment under the guidelines of Iowa Workforce Development. The needy veteran will be required to provide reasonable proof that he or she is actively seeking employment. The veteran will be required to sign a release of information to the Workforce Development of Iowa. Previously employed veterans must sign up for unemployment benefits. Unemployed veterans may also be referred to a work or vocational training project if appropriate. 3. Is unable to obtain assistance from any other sources, and whose income or assistance from a State or Federal program has been delayed or not actually received by the person because of reasons not attributable to that person.
4. Does not have liquid assets of the family unit from which to pay for the items of assistance being requested.
5. Have a net worth (see definition under Section 2. H.), of less than \$1,000.

Veterans who provide documentation of a disability due solely to substance abuse of drugs and/or alcohol shall also provide proof of their participation in an appropriate treatment program. Failure to make a good faith effort to enroll in, and participate in, an appropriate treatment program shall result in the veteran being deemed ineligible for assistance under the provisions of this Ordinance until such time as the veteran has made a good faith effort to enroll and participate in an appropriate treatment program.
9. Per Iowa Code section 252.1, have no property as defined by statute and/or Iowa case law, as determined by the Director/Administrator.
10. Have no earned or countable income.

F. **TRANSFERS OF PROPERTY FOR INSUFFICIENT CONSIDERATION:** In determining eligibility for Veteran Assistance, resources which were not exempt at the time of transfer, which the veteran gave away or sold at less than fair market value for the purpose of establishing eligibility for assistance shall be counted as resources still available to the veteran for the following period of time:

1. For uncompensated value of \$12,000 or less; 24 months from the date of transfer.
2. For uncompensated value of between \$12,001 and \$24,000; 36 months from the date of transfer.
3. For uncompensated value of between \$24,001 and \$36,000; 48 months from the date of transfer.
4. For uncompensated value of between \$36,001 and \$50,000; 60 months from the date of transfer.
5. For uncompensated value over \$50,000; 72 months from the date of transfer.

Transfers of resources described above shall be presumed to be for the purpose of establishing eligibility for Veteran Assistance unless the veteran furnishes convincing evidence to establish that the transaction was exclusively for some other purpose.

Convincing evidence to establish that the transaction was exclusively for a purpose other than establishing eligibility may include documents, letters and contemporaneous writings, as well as other circumstantial evidence.

In rebutting the presumption that the resource was transferred to establish eligibility, the burden of proof is on the veteran to establish:

1. The fair market value of the compensation and,
2. That the compensation was provided pursuant to an agreement, contract, to expectation in exchange for the resource and,
3. That the agreement, contract or expectation was established at the time of the transfer.

Uncompensated value is defined as the fair market value of the resource minus the amount of compensation received by the individual in exchange for the resource. In no case will the amount of uncompensated value exceed the amount which would have been counted toward the resource limit if the resource had been retained.

Fair Market value is defined as the price that the item can reasonably be expected to sell for on the open market in the particular geographic area involved and may be established by independent appraisal.

Compensation is defined as all money, real or personal property, food, shelter or services received by the individual in exchange for the resource if such money, property, food, shelter or services are provided in reliance on an agreement made at the time of transfer.

SECTION 4: ASSESSMENT OF NEED AND INCOME GUIDELINES FOR VETERANS

All earned and unearned income available to a veteran and their applying household shall be considered in determining eligibility for Veteran Assistance. Deductions from all earned and unearned income will include:

- A. Court ordered payments for alimony and/or child support which have actually been paid in the four weeks prior to the date of application for assistance.
- B. Necessary medical expenses including doctor, hospital, prescription medications, medical supplies, therapy sessions prescribed by a medical doctor, and paid medical insurance premiums.
- C. Any other deduction from, or reduction to, earned income will not be allowed and the amount of any deduction or reduction in earned income must be added back to determine the countable income.

All sources of countable income, exemptions from countable income, and non-exempt resources, shall be verified by the Director/Administrator of Veteran Affairs prior to approval for benefits. The applying veteran is responsible for providing documentation, acceptable to the Director/Administrator, for all exemptions to countable income.

SECTION 5: MEDICAL ASSISTANCE

Jones County does not provide for medical assistance. The Jones County Director/Administrator will assist the Veteran in applying for medical assistance through the Veterans Hospital in Iowa City or other veteran's medical services throughout the State as appropriate. Further applications for medical assistance for veterans and their families will be directed to the Department of Human Services to make application for Medicaid, Medically Needy, the Hawkeye Plan, or the Iowa Cares Plan.

Jones County does not pay for either prescription or over the counter medication. Veterans will be directed to apply for medication through the Veterans Hospital in Iowa City. If this is not available to the veteran, or the need is for the veteran's family, they may apply to Patient Assistance Programs offered by the various pharmaceutical companies.

Jones County does participate in the National Association of Counties Prescription Discount Card. A card may be obtained at the Veteran Affairs Office. There are no restrictions on who may obtain a card. The card may be used at participating pharmacies.

Medical assistance, including mental health services, is available through the Veterans Hospital in Iowa City. If this service does not meet the needs of the veteran, State Psychiatric papers are available through the University of Iowa, State Mental Health Institutes, and Broadlawns Hospital in Des Moines. Application is made through the hospitals. The State Psychiatric papers cover only services through these hospitals. Appointments at the University of Iowa Hospitals and Clinics, State Mental Health Institutes, or Broadlawns Hospital are required to begin processing these applications.
