Supervisor Lambertsen introduced the following FAMILY MEDICAL LEAVE ACT RESOLUTION, and moved its adoption, seconded by Supervisor Peters. On roll call vote: Cook aye, Peters aye, Lambertsen aye, Tredway aye, whereupon the Chairman declared the resolution passed and adopted.

FAMILY MEDICAL LEAVE ACT RESOLUTION

BE IT RESOLVED by the Jones County Board of Supervisors, that in accordance with the federal Family and Medical Leave Act, effective August 5, 1993, Jones County will grant job protected unpaid family and medical leave to eligible male or female employees for up to 12 weeks per 12-month period for any one or more of the following reasons:

- A. The birth of a child and in order to care for such child or the placement of a child with the employee for adoption or foster care; or
- B. In order to care for an immediate family member (spouse, child, or parent) of the employee if such immediate family member has a serious health condition; or
- C. The employee's own serious health condition that makes the employee unable to perform the functions of his/her position.

Section 1: Eligibility

To be eligible for family/medical leave an employee must have at least one year of service and have worked at least 1250 hours over the previous 12 month period. Employees applying for and granted a family leave of absence are required to meet notification and documentation requirements as outlined further in this policy. Failure to meet these requirements may result in the denial or revocation of a family leave.

Section 2: Definitions

- A. **12 Month Period** - means a twelve (12) month period measured forward from the first date of leave.
- B. **Spouse** - does not include unmarried domestic partners. If both spouses work for the County, their total leave in any 12 month period may be limited to an aggregate of 12 weeks if the leave is taken for either the birth or placement for adoption or foster care of a child or to care for a sick parent.
- C. **Child** - means a child either under 18 years of age; or 18 years of age or older who is incapable of self-care because of a mental or physical disability. An employee's "child" is one for whom the employee has actual day-to-day responsibility for care and includes a biological, adopted, foster, or step-child.
- D. **Serious Health Condition** - means an illness, injury, impairment, or a physical or mental condition that involves:
 1. Inpatient care; or
 2. Any period of incapacity requiring absence from work for more than three calendar days AND that involves continuing treatment by a health care provider; or
 3. Continuing treatment by a health care provider for a chronic or long-term health condition that is incurable or which, if left untreated, would likely result in a period of incapacity of more than three calendar days; or
 4. Prenatal care by a health care provider.

Section 3: Intermittent or Reduced Leave

An employee may take leave intermittently (a few days or a few hours at a time) or on a reduced leave schedule to care for an immediate family member with a serious health condition or because of serious health condition of the employee when "medically necessary". Medically necessary means there must be a medical need for the leave and that the leave can best be accomplished through an intermittent or reduced leave schedule. The employee may be required to transfer temporarily to a position with equivalent pay and benefits that better accommodates recurring periods of leave. The employee must make a reasonable effort to schedule treatment(s) so as not to unduly disrupt the County's operations. An employee may take leave intermittently or on a reduced leave schedule for birth or placement for adoption or foster care of a child only with the department head's consent.

Section 4: Substitution of Paid Leave

The county will require the employee to substitute any unused, accrued paid:

1. Vacation, personal, family, or compensatory time leave for any portion of the twelve (12) week leave for birth, adoption, foster placement or to care for a child, spouse, or parent with a serious health condition; or
2. Vacation, personal, compensatory time, or sick leave for any portion of the twelve (12) week leave for leave to care for employee's own serious health condition.

When an employee has used all accrued paid leave for a portion of family/medical leave, the employee may request an additional period of unpaid leave to be granted so that the total of paid and unpaid leave provided equals 12 weeks.

Section 5: Notice Requirement

An employee is required to give 30 days notice in the event of a foreseeable leave. A "Request for Family/Medical Leave" form should be completed by the employee and returned to the Department Head. In unexpected or unforeseeable situations, an employee should provide as much notice as practicable. If family/medical leave is granted, the department head shall immediately file a copy of the employee's leave request and a copy of the Department Head's leave approval with the County Auditor's office.

Section 6: Medical Certification

An employee requesting FMLA leave must provide a certificate of a doctor or practitioner at the time the request is made. A "Physician Certification Form" is available from the employee's Department Head. The County may also require a second or third opinion (at County expense). Periodic reports on the employee's status and intent to return to work, and a fitness-for-duty report to return to work may be required.

Section 7: Effect on Benefits

Taking FMLA leave will not result in the loss of any employee benefit accrued prior to the date on which the leave began. Vacation, seniority and other accrued benefits will not accrue during any unpaid leave.

Section 8: Continuation of Employee Benefits

An employee on a family/medical leave may remain a participant in the County's employee health insurance plan throughout the duration of the leave, as if actively employed. The employee will be required to pay the same cost of coverage as if actively at work.

The County will continue to maintain any life insurance and disability insurance while the employee is on unpaid FMLA leave.

Employee contributions will be required either through payroll deduction or by direct payment to the Jones County Auditor's Office by the 25th of the month prior to the month continued coverage is required. The employee will be informed of the amount and method of payment at the beginning of the leave. Loss of insurance coverage may result if the premium amount is paid more than 30 days late. If the employee misses a premium payment and the County pays the employee's contribution, the employee will be required to reimburse the County for delinquent payment upon return from leave.

Section 9: Return to Work

An employee returning from leave taken under this policy is entitled to return to the position held when the leave began, if that position is vacant. If the position is not vacant, the employee must be returned to an equivalent position with equivalent benefits, pay and other conditions.

RESOLUTION

WHEREAS Traffic has increased to the point U.S. Highway #151 from East of Springville to the West edge of Dubuque will not carry the additional traffic with adequate safety.

AND WHEREAS There is a need to upgrade this facility to a four lane divided highway in the very near future, with by-passes of Monticello and Cascade

AND WHEREAS We understand the reconstruction of this facility will take several years to complete. It is our desire that the start of this work be placed in the five year construction program at this time to provide for a safe and sound corridor through Eastern Iowa.

AND WHEREAS We have met with all Government identities along this stretch of Highway #151 and are in agreement to the following phase work. Two areas were identified as problem areas. Cascade by-pass is needed right now or before a four lane is brought to the city. The stretch from Anamosa to Monticello has a very heavy accident record. By starting at the West end this would improve this stretch at an early date.

NOW THEREFORE BE IT RESOLVED That the following phase work be scheduled.

1. Completion of the four lane from East of Springville to Highway #1 and building of the Cascade by-pass.
2. Completion of the four lane from Highway #1 to North of Highway #64.
3. Completion of the four lane from Highway #64 to Monticello.
4. Completion of Monticello by-pass and four lane to Cascade.
5. Completion of final segment to Cascade to Dubuque four lane.

WHEREAS, the Board of Supervisors desires to set formal guidelines to provide for better accountability of those funds, THEREFORE the Board of Supervisors adopts the following policy in regard to Petty Cash Funds held by county offices:

- a.) The imprest amount must be formally approved by the Board of Supervisors and established by county claim and warrant.
- b.) The fund is subject to audit by the Board of Supervisors at any time.
- c.) The fund is to be used for incidental purchases only, such as postage due, freight, etc.
- d.) The fund cannot be used for employee meals, mileage, or any other employee travel reimbursements.
- e.) The fund should not be used for items in excess of \$5.00 which can be purchased by invoice with payment by county warrant at a later date.
- f.) Claims to replenish the fund must include a receipt from the recipient. In certain circumstances this may not be possible, therefore, an in-house receipt signed by the Department Head and one other employee of that department containing the date, amount paid, nature and purpose of the expenditure and who it was paid to, shall suffice. (Sheriff's secret investigation expenditures need only have an in-house receipt signed by the Sheriff if disclosing any further information would jeopardize the investigation. The Sheriff must keep documentation for a secret investigation expenditure in his closed records.)

A farm or farm operation located in the Agricultural Land Use District shall not be found to be a nuisance regardless of the established date of operation or expansion of the agricultural activities of the farm or farm operation. This section is subject to the following exceptions:
 - 1. The restriction does not apply to a nuisance which is the result of a farm operation determined to be in violation of a federal statute or regulation or state statute or rule.
 - 2. The restriction does not apply if the nuisance results from the negligent operation of the farm or farm operation.
 - 3. The restriction does not apply to actions or proceedings arising from injury or damage to a person or property caused by the farm or a farm operation before the passage of this Ordinance.

E. Application for Condemnation

If the damages are to be paid by the State and the land to be condemned is within the Agricultural Land Use District, a statement disclosing whether any of that land is classified as Class I or Class II land under the United States Department of Agricultural Soil Conservation Service Land Capability Classification System contained in the Agriculture Handbook Number 210, 1961 edition and, if so classified, stating that the Class I or Class II land is reasonably necessary for the work of internal improvement for which condemnation is sought.

SECTION 1. LAND SUITABILITY

No land shall be subdivided that is found to be unsuitable for subdividing by reason of flooding, ponding, poor drainage, adverse soil conditions, adverse geological formations, unsatisfactory topography or other conditions likely to be harmful to the public health, safety or general welfare, unless such unsuitable conditions are corrected to the satisfaction of the Board of Supervisors.

SECTION 2. AGRICULTURAL LAND

Land currently placed in agricultural use with a Corn Suitability Rating higher than seventy (70) shall not be approved for subdivision unless the Board of Supervisors determines that special factors exist for granting an exception. Any exceptions to this section shall be set out in writing and shall set out the special factors which were relied upon to grant the exception.

SECTION 3. LANDS IN FLOOD PLAINS

No subdivision containing land located in a floodway or a flood hazard area shall be approved by the Board of Supervisors unless it meets at least one of the following criteria:

- A. Each lot within the subdivision is of such size and shape that it contains a buildable area outside of the floodway or flood hazard area.
- B. The floodway or flood hazard area is reserved as open space for recreation use by all owners of lots in the subdivision, with an appropriate legal instrument, approved by the Board of Supervisors, providing for its care and maintenance by such owners.
- C. The floodway or flood hazard area, if approved by the Board of Supervisors, is dedicated to the County as public open space for recreation or for flood control purposes.

SECTION 4. LOT USES AND SIZE

Lots within the subdivision shall be at least one (1) acre in size, excluding road easements. Developers are responsible for drafting restrictive covenants, which shall run with the land, to restrict any further division of the lot into separate lots of less than one (1) acre in size. However, those lots which can be connected to an existing municipal sewer and sanitary system, and to an existing municipal water system may be less than one (1) acre in size. Restrictive covenants shall restrict further division of said lots which are less than one (1) acre in size. Regardless of their size, lot arrangement and design shall also be such that all lots will provide satisfactory building sites, properly related to topography and to land uses for that lot and all other surrounding land.

SECTION 5. STREETS AND ACCESS POINTS

The developer of land being subdivided shall be responsible for construction of all streets, and unless provided for otherwise by the Board of Supervisors, said streets will be classified as private. In all plats where private roads are to be approved, a Road Association Agreement shall be established to guarantee access to all lots, to ensure repair and maintenance of the roads, and to provide for any necessary utility easements. Roads and lots within the subdivision shall be so arranged as to minimize the number of access points onto arterial streets or county roads. Plans for roadways and right of way easements must be approved by the Jones County Engineer prior to final plat approval. Each roadway right of way shall be at least sixty-six (66) feet wide as required by Jones County Board of Supervisors Resolution of May 9, 1978, recorded in Supervisor's Record Book P, Page 341.

SECTION 6. STREET FRONTAGE AND LOT DEPTH

The developer of the subdivision shall provide for lot frontages of at least one hundred fifty (150) feet along any public or private street. Each lot within a subdivision shall also extend back from any such street a distance of at least one hundred fifty (150) feet. The Board of Supervisors may grant exceptions to the requirements of this section when required by special circumstances.

SECTION 7. SANITARY SEWER SYSTEM

The developer of the subdivision shall provide adequate provisions for the disposal of sanitary sewage from the platted area with due regard being given to present or reasonably foreseeable needs. A developer, whenever feasible, shall connect to an existing public sanitary sewer system. Where connection to an existing public sanitary sewer system is not feasible, the developer may be required to construct such a system. Such a system shall conform with applicable state rules on waste water treatment facilities, and all private waste water treatment and disposal systems shall be approved by the County Sanitarian prior to final plat approval. Percolation tests shall also be performed on the subdivision following standards set by the Jones County Sanitarian prior to final plat approval. Individual lots shall be subjected to such a percolation test at the time of their initial conveyance to a third party.

SECTION 8. STORM SEWER SYSTEM

The developer of a subdivision shall make appropriate provision for a drainage and/or storm sewer system adequate to serve the area. This system should allow for anticipated extension of use to serve additional areas, so as to prevent undue runoff onto adjacent lands.

SECTION 9. WATER SYSTEM

The developer of a subdivision shall make appropriate provision for a suitable water supply for each platted lot or parcel with due regard given to present or reasonably foreseeable needs. No subdivision shall be approved until and unless the proposed system for providing water has been approved by the County Sanitarian.

SECTION 10. UTILITY EASEMENTS

The developer of a subdivision shall make appropriate provisions to provide easements for present or future public utilities requirements. Said easements of not less than ten (10) feet in width shall run along rear and, where necessary, front and side lot lines. Such easements shall be centered on lot lines, except where prohibited by topography. Easements of greater width may be required along lot lines or across lots when necessary for the placement and maintenance of utilities. No buildings or structures, except when necessary for utilities, shall be permitted on such easements. Private drives, when necessary, shall be allowed to cross easements running along the front of lot lines.

SECTION 11. STREAMS AND WATERCOURSES

The developer of a subdivision shall make appropriate provisions to provide for and maintain proper drainage of surface water from any streams and surface watercourses located in the area that is being subdivided.

SECTION 12. SETBACKS

Each lot within a subdivision shall be subject to a setback of thirty (30) feet from all roadway easements and lot lines and from the edge of all private and public street adjoining or crossing over that lot. No building or other structure shall be allowed within the setback area.

SECTION 13. MISCELLANEOUS IMPROVEMENTS

The developer of a subdivision shall make provisions for the installation of grading and seeding, or sodding of all lots and all necessary soil erosion control measures during construction, the planting of any required trees, and the installation of street signs and street lighting as required. The developer of a subdivision adjacent to any existing livestock operations are fully responsible for the construction and maintenance of perimeter fencing.

SECTION 14. MAINTENANCE OF IMPROVEMENTS

Unless otherwise approved by the Board of Supervisors, improvements required to be installed within a subdivision shall remain the property and the responsibility of the developer or successors in interest to the lands being subdivided. No subdivision shall be approved until and unless legal covenants, running with the land, sufficient to ensure that the county will not need to assume maintenance responsibility for such improvement have been approved.

 1. It is supported by reasonable cause unrelated to the occupants' participation in the lead poisoning screening program; OR

SECTION 11. HEARINGS

In the event any person is aggrieved by any order of the Health Officer, he/she may within ten (10) days of the date of such order appeal to the Board of Health and in writing, state his/her reasons for requesting such order to be rescinded or modified. If any section, paragraph, clause or provision of the ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provisions shall not affect any of the remaining provisions of this ordinance.

SECTION 17. VARIANCES

- A. The Health Officer shall have the authority to determine a surface, that may otherwise be identified as a lead hazard, lead safe. If the Health Officer is able to determine a surface (that fits the description of a lead hazard) is not causing or does not have reasonable potential to cause lead exposure, the Health Officer may, with written notice, deem that surface as lead safe. This may be done only after a thorough investigation of the entire premises is complete, and careful evaluation of the source(s) identified as the cause or potential cause of lead poisoning are identified. Detailed documentation of such surfaces shall be included in the final report of the premises and be provided to the owner, tenant, and Health Officer.

POLICY FOR EXPENDITURE OF PUBLIC FUNDS FOR VOLUNTEER SUBSISTENCE

The Jones County Board of Supervisors recognize that many people freely give of their time for the welfare and benefit of the citizens of Jones County. The Board believes that minimal accommodations may be provided with public funds in certain situations to help support our volunteers and maintain morale.

The Jones County Board of Supervisors believe it to be in the best interest of the citizens of Jones County to establish the following policy for the expenditure of public funds for subsistence for volunteers.

Public funds may be expended for subsistence for volunteers in the following situations:

Training classes provided by Jones County to maintain minimum training requirements or to increase training levels.

Exercises sponsored by Jones County to plan and practice for emergency situations in Jones County.

Emergency response activities directed by a Jones County department or agency that involve extended time periods.

Classes, conferences, and seminars sponsored by Jones County for volunteers and community

members.

Approved expenditures are as follows:

Food and drink (coffee, pop, & snacks) may be provided for training classes, conferences, and seminars up to four hours in length.

A light meal (sandwiches, soup, fruit, & drinks) may be provided for training classes, conferences, seminars, and exercises that extend beyond four hours in length in one day, if the activity continues through a normal meal time.

A more substantial meal (sandwiches, soup, fruit, drinks, & snacks) may be provided for emergency response activities extending beyond a four-hour period.

County employees participating in the above activities alongside the volunteers may partake of the refreshments without need for reimbursement to the county.

The department head responsible for organizing or sponsoring the activity must bear in mind that the public purpose and public benefit derived from the use of public funds for these activities deserves close scrutiny and shall not be abused. All requests for payment of these types of expenditures shall include in the documentation a clear explanation of the public purpose of the activity and a list of participants.

Summary: Requires the Governor and Legislature to prepare and approve budgets for general fund expenditures which are no more than 99% of estimated revenues and carryover funds. Only 95% of new revenues may be included in general fund expenditures.

The Constitution of the State of Iowa is amended by adding the following new section to new Article XIII:

ARTICLE XIII. EXPENDITURE LIMITATION.

GENERAL FUND EXPENDITURE LIMITATION. Section 1.

1. For the purposes of this section:

a. "Adjusted revenue estimate" means the most recent revenue estimate determined before January 1, or a later and lesser revenue estimate determined before adjournment of the regular session of the General Assembly, for the general fund for the following fiscal year as determined by a revenue estimating conference which shall be established by the General Assembly by law, adjusted by subtracting estimated refunds payable from that estimated revenue and adding any available surplus in accordance with subsection 5.

b. "General fund" means the principal operating fund of the state which shall be established by the General Assembly by law.

c. "New revenues" means moneys which are received by the state due to increased tax rates or fees or newly created taxes or fees over and above those moneys which are received due to state taxes or fees which are in effect as of January 1 following the most recent state revenue estimating conference. "New revenues" also includes moneys received by the general fund due to new transfers over and above those moneys received by the general fund due to transfers which are in effect as of January 1 following the most recent state revenue estimating conference. The state revenue estimating conference shall determine the eligibility of transfers to the general fund which are to be considered as new revenue in determining the state general fund expenditure limitation.

2. A state general fund expenditure limitation is created and calculated in subsection 3, for each fiscal year beginning on or after July 1 following the effective date of this section.

3. Except as otherwise provided in this section, the state general fund expenditure limitation for a fiscal year shall be ninety-nine percent of the adjusted revenue estimate.

4. The state general fund expenditure limitation shall be used by the Governor in the preparation of the budget and by the General Assembly in the budget process. If a new revenue source is proposed, the budget revenue projection used for that new revenue source for the period beginning on the effective date of the new revenue source and ending in the fiscal year in which the source is included in the adjusted revenue estimate shall be ninety-five percent of the amount remaining after subtracting estimated refunds payable from the projected revenue from that source. If a new revenue source is established and implemented, the original state general fund expenditure limitation amount provided for in subsection 3 shall be readjusted to include ninety-five percent of the estimated revenue from that source.

5. Any surplus existing at the end of a fiscal year which exceeds ten percent of the adjusted revenue estimate of that fiscal year shall be included in the adjusted revenue estimate for the following fiscal year. Any surplus equal to ten percent or less of the adjusted revenue estimate of the fiscal year may be included in the adjusted revenue estimate for the following fiscal year if approved in a bill receiving the affirmative votes of at least three-fifths of the whole membership of each house of the General Assembly. For purposes of this section, "surplus" means the cumulative excess of revenues and other financing sources over expenditures and other financing uses for the general fund at the end of a fiscal year.

6. The scope of the expenditure limitation under subsection 3 shall not include federal funds, donations, constitutionally dedicated moneys, and moneys in expenditures from a state retirement system.

7. The Governor shall submit and the General Assembly shall pass a budget which does not exceed the state general fund expenditure limitation.

8. The Governor shall not submit and the General Assembly shall not pass a budget which in order to balance assumes reversion of any part of the total of the appropriations included in the budget.

9. The state shall use consistent standards, in accordance with generally accepted accounting principles, for all state budgeting and accounting purposes.

10. The General Assembly shall enact laws to implement this section.

THREE-FIFTHS MAJORITY TO INCREASE TAXES. Section 1. This section does not apply to income tax or sales and use taxes imposed at the option of a local government.

A lawsuit challenging the proper enactment of a bill pursuant to section 1 or 2 shall be filed no later than one year following the enactment. TITLE IV - STREETS, ROADS, PUBLIC WAYS & TRANSPORTATION

TITLE. An ordinance establishing the Area Service System C road classification in Jones County, Iowa.

SECTION 1. PURPOSE

The purpose of this ordinance is to classify certain roads on the Area Service System in Jones County as Area Service "C" roads so as to provide for a reduced level of maintenance effort and restricted access, pursuant to Iowa Code Section 309.57 (1999).

SECTION 2. DEFINITIONS

For use in this ordinance, certain terms or words used herein shall be defined as follows:

- A. Board: Shall mean the Board of Supervisors of Jones County.
- B. County: Shall mean Jones County.
- C. County Engineer: Shall mean the County Engineer of Jones County.

SECTION 3. HOW ESTABLISHED

The resolution shall only allow access of the road to the owner, lessee, or person in lawful possession, to the agent or employee of the owner, lessee, or person in lawful possession, to the agent or employee of any public utility, or to any peace officer, magistrate or public employee whose duty it is to supervise the use or perform maintenance of the road.
- B. NOTICE OF ACTION: Before the Board may take action on a petition to establish an Area Service "C" road, a notice of the proposed action, including the location of the Area Service "C" road and the time and place of the meeting at which the Board proposes to take action on the petition, shall be published as provided in Iowa Code Section 331.305 (1999).

RESOLUTION DESIGNATING DEPOSIT PROCEDURES FOR
LOCAL OPTION TAX MONIES
AND CREATION OF A SECONDARY ROAD OPTION TAX FUND

At an election held on June 29, 1999 the voters residing in the unincorporated area of Jones County adopted implementation of a 1% local option sales and services tax to be effective October 1, 1999. The ballot stated that 25% of the local option tax monies distributed to Jones County shall be used as property tax relief in the unincorporated areas of the county of Jones and 75% shall be used for roads and bridges in the unincorporated (rural) area of Jones County.

The portion of local option tax monies designated for property tax relief in the unincorporated areas of the county of Jones (25%) shall be deposited in the Rural Services Fund.

Iowa Code section 331.429 requires that all revenues for secondary road services shall be credited to the Secondary Road Fund. Because the Jones County Board of Supervisors wish to track the local option tax funds for roads and bridges separately for informational purposes, there is hereby created a subsidiary fund of the Secondary Road Fund for the purpose of accounting for the revenues and expenditures of local option tax monies designated for roads and bridges (75%). When preparing the county's annual financial statements, the County Auditor shall combine the revenues, expenditures, and fund balances of the Secondary Road Option Tax Fund with the Secondary Road Fund and report them as one fund for compliance with Iowa Code section 331.429. The County Auditor shall make a note to the county's published financial statements and budget indicating the amount of revenues, expenditures, and fund balance of the Secondary Road Option Tax Fund.

All road and bridge projects to be funded by local option tax monies shall be approved by resolution of the Jones County Board of Supervisors specifically stating the project is to be paid for by local option tax funding.
